DATE: April 24, 2023

SUBDIVISION NAME: Reunion Ridge Filing 2
LOCATION: SWC of Reunion Ridge Way and E 100th Ave
STATUS: Development Plan and Final Plat

Dear Mike,

A. STUDENT GENERATION

Estimated Dwelling Units	Students
147 SFD	113.925

(Any discrepancy due to rounding)

B. LAND DEDICATION/CASH-IN-LIEU REQUIREMENTS

The land dedication requirement for this filing will be satisfied with the transfer of the high school site.

C. SCHOOL ATTENDANCE AREA

Students from this proposed development will currently attend:

- Second Creek ES – 9950 Laredo Dr, Commerce City
- Stuart MS – 15955 E 101st Way, Commerce City
- Prairie View HS – 12909 E 120th Avenue, Henderson

Current projections indicate available capacity for the next several years at Second Creek ES depending on residential development and the possibility of a charter school on the Second Creek Farm school site. The District will be adjusting boundary areas to provide additional capacity at Stuart MS in 2023. There will be added capacity at Prairie View High School when the new CTE annex opens in 2023.

D. CAPITAL FACILITY FEE FOUNDATION

The Capital Facility Fee Foundation is a unique public/private nonprofit organization founded in January 2001 to help fund school expansion or new school construction. This program has been developed in partnership with each of the municipalities in the District, developer and builder representatives, and 27J Schools. Funding is provided by builders and developers who have agreed to contribute per residential dwelling unit based on the current fee structure.

The current fees negotiated for this program are as follows: \$980 per single family residential unit and \$560 per multi-family unit.

SCHOOL DISTRICT PLANNING COMMENTS AND RECOMMENDATIONS:

1. The land dedication requirement for this filing will be satisfied with the transfer of the high school site.
2. The District appreciates that Oakwood Homes will be mitigating the impact of this development on District school facilities by contributing to the Capital Facility Fee Foundation.

We appreciate your continuing cooperation and the opportunity to comment upon issues of interest to both the City and the School District. We look forward to receiving updated referrals on this subdivision. Please let me know if you have questions about these comments.

Sincerely,

Kerrie Monti

MEMO

To: Michael Rosso, Planner

From: Traci Ferguson, Parks Planner

Subject: S-778-20-23 Reunion Ridge Filing 2

Date: March 21, 2023

Parks has reviewed the above proposal and has the following comments.

- 1.) There will be a park fee-in-lieu associated with this development and it shall be calculated as follows per the current plan. The fee will be recalculated if developed area and/or number of lots changes.

$$\begin{aligned} \$45,364/\$12,000 \times \$0.09 \times 473,626 \text{ sq. ft.} &= \mathbf{\$161,141} \\ \$161,141/147 \text{ lots} &= \mathbf{\$1,096 \text{ per unit}} \end{aligned}$$

- 2.) The park fee will be due at the time a building permit is obtained.

Please feel free to contact me at 303-227-8788 or tferguson@c3gov.com with any questions.

INTEROFFICE MEMORANDUM

TO: Michael Rosso, Planner
FROM: Lindy Howard, P.E., Consulting Development Review Engineer
DATE: May 22, 2023
SUBJECT: Case Nos: Z-778-20-23 (Final Plat) & D-515-23 (PUD Development Permit); Reunion Ridge Filing 2 – PUD Permit & Plat, 7th PW review

Public Works has reviewed the above and has the following comments:

Plat (Reunion Ridge Filing No. 2), dated March 27, 2023:

1. All previous plat comments have been satisfactorily addressed.

PUD Permit (Reunion Ridge Filing No. 2 P.U.D. Permit), dated June 24, 2021, revised April 5, 2023:

1. All previous PUD Permit comments have been satisfactorily addressed.

General:

1. Please continue to coordinate with Lee Alverson to complete this Development Agreement.

For Information:

1. A Road Impact Fee will be due for these areas, per Section 21-9220 of the City's *Land Development Code* (LDC). Payment will be due at the time of Building Permit.
2. A Drainage Impact Fee will be due for these areas, per Section 21-9240 of the City's *Land Development Code*. Payment will be due at the time of the Building Permit.
3. A ROW Permit will be required to be obtained from Public Works for any work within the Public ROW.
4. Public Works Permit information can be found here:
<http://www.c3gov.com/doing-business/developing-in-commerce-city/civil-plan-approval-grading-permits>.

If you have any questions, please call me at 720-286-5327.

Re: S-778-20-23 – Reunion Ridge Filing No. 2 – Final Plat

Dear Michael:

On behalf of United Power, Inc., thank you for inviting us to review and comment on the 6th submittal of the Reunion Ridge Filing No. 2 – Final Plat. After review of the information, United Power continues to have no further comments at this time.

Please have the property owner/developer/contractor submit an application for new electric service, along with CAD data via <https://www.unitedpower.com/construction>. United Power would like to work with these persons early in the construction process on getting an electric design prepared so that we can request any additional easements needed and hopefully have those easements dedicated on the plat rather than obtaining separate instrument. Obtaining easements via a separate instrument can be time consuming and could cause delays.

As a Reminder: No permanent structures are acceptable within the dry utility easement(s); such as, window wells, wing walls, retaining walls, basement walls, roof overhang, anything affixed to the house like decks, etc. United Power considers any structure that impedes the access, maintenance, and safety of our facilities a permanent structure. No exceptions will be allowed, and any encroachments could result in penalties.

Service will be provided according to the rules, regulations, and policies in effect by United Power at the time service is requested. We would like to remind the developer to call the Utility Notification Center by dialing 811 to have all utilities located prior to construction. We look forward to safely and efficiently providing reliable electric power and outstanding service.

Thank you,

Samantha Riblett
United Power, Inc.

Re: S-810-21-23 – Reunion Ridge Riling No. 3 – Final Plat

Dear Michael:

On behalf of United Power, Inc., thank you for inviting us to review and comment on the Reunion Ridge Filing No. 3 – Final Plat. The following comments are subject to change as information is received or if there are changes to the plans during additional reviews. Any comments/requirements provided are not all inclusive and are provided with the intention to aid you in your process.

After review of the information, we have the following comments:

- Thank you for acknowledging my last submittal request and ensuring those areas have an 8' U.E.

Please keep in mind:

- **Streetlights** – When streetlight locations are identified in a subdivision, we need a 5' wide dry utility easement along one side of the lot closest to the streetlight location. All streetlight locations must be approved and signed off by the city/town, etc. Please note, if we do not get these through the platting process, we will have to get individual ones during the design which will slow United Power's ability to start construction significantly.
- **Landscaping within a Utility Easement** - Please do not plant trees under or close to overhead power lines. Keeping power lines clear of trees and vegetation helps protect the property. United Power will trim or remove trees within 10-feet of primary overhead lines. When placing landscaping above underground lines, we cannot have any deep rooting vegetation or trees planted over our lines. The trunk/base of the tree(s) should be minimum of 5' away from the underground electric line. Any landscaping should be a minimum clearance distance of 15-feet from the front and both sides of equipment such as transformers, and cabinets, etc. and five feet from the back to allow a backhoe if needed.

Please have the property owner/developer/contractor submit an application for new electric service, along with CAD data via <https://www.unitedpower.com/construction>. United Power would like to work early with the applicant in the construction process to get an electric design prepared so that we can request any additional easements. When possible, we prefer these easements are dedicated on the plat rather than obtaining by separate instrument. Obtaining easements via a separate instrument can be time consuming and could cause delays.

As a Reminder: No permanent structures are acceptable within the dry utility easement(s); such as, window wells, wing walls, retaining walls, basement walls, roof overhang, anything affixed to the house like decks, etc. United Power considers any structure that impedes the access, maintenance, and safety of our facilities a permanent structure. No exceptions can be allowed, and any encroachments could result in penalties.

Thank you,

Samantha Riblett

Re: Reunion Ridge F2, Case #s D-515-23 and S-778-20-23

Public Service Company of Colorado's (PSCo) Right of Way & Permits Referral Desk has reviewed the PUD development permit and plat for **Reunion Ridge F2**. The property owner/developer/contractor must complete the application process for any new natural gas *service* via xcelenergy.com/InstallAndConnect. It is then the responsibility of the developer to contact the Designer assigned to the project for approval of design details.

If additional easements need to be acquired by separate PSCo document, a Right-of-Way Agent will need to be contacted.

Re: Reunion Ridge F3 - 4th referral, Case #s D-536-23 and S-810-21-23

Public Service Company of Colorado's (PSCo) Right of Way & Permits Referral Desk has reviewed the PUD development permit and plat for **Reunion Ridge F3**. The property owner/developer/contractor must complete the application process for any new natural gas *service* via [xcelenergy.com/InstallAndConnect](https://www.xcelenergy.com/InstallAndConnect). It is then the responsibility of the developer to contact the Designer assigned to the project for approval of design details.

If additional easements need to be acquired by separate PSCo document, a Right-of-Way Agent will need to be contacted.

Please be aware PSCo owns and operates an existing high-pressure natural gas *transmission* pipeline directly east of the subject property. If there are any activities in this area, an engineering review will be necessary via: https://www.xcelenergy.com/encroachment_application.
