

Daily Report: Kevan Northup week of Feb 25<sup>th</sup> 2019

A1 Monaco Site.

Feb 25<sup>th</sup> -9:30 AM- wind speed is around 3 mph. No dust is blowing off the site in any direction. Wind is coming from the north and blowing south. The screening is down for repairs until later this afternoon and the only production scheduled for this morning is painting ops of PG Red.

There is 5" of snow covering the site, so the site will not be watered today.

Feb 25<sup>st</sup> 3:00 PM - end of shift and equipment cleanup has begun

Large truck and vehicle traffic have been very light today. There were no grinding ops today. Only 4 large trucks were loaded on the east side of the site with mulch today. No tipping customers drove on the east side of the site, all were diverted to the far west side via the main road coming from the office trailer going west.

---

Feb 26<sup>st</sup> 9:18 AM- the wind speed is 2 mph blowing from the north west. There is very little dust coming from the screening operation and it's falling directly into the appropriate piles only.

There is still snow on the site so the site will not be watered today.

Feb 26<sup>st</sup> 3:00 PM - end of shift and equipment cleanup has begun.

The wind did not get over 5 mph today.
