WHEREAS, Developer intends to subdivide and/or develop the Property, the effect of which will directly impact and generate the need for on-site and off-site improvements;

WHEREAS, the City has enacted a Land Development Code (the “LDC”) that, as a result of the subdivision and/or development, requires certain public improvements to be installed and/or constructed on or adjacent to the Property; and

WHEREAS, Developer acknowledges that the improvements required herein are reasonably attributable to the special impacts that will be generated by the proposed uses of the Property and that the terms and conditions set forth in this Agreement are reasonable, necessary and appropriate.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, the parties hereby agree as follows:

I. IMPROVEMENTS REQUIRED

A. Developer shall provide the improvements or other performance requirements as set forth in **Exhibits B and C** (collectively, the “Improvements”) as follows:

1. **Exhibit B**, attached hereto and incorporated herein by this reference, identifies all required infrastructure improvements related to public roadways, right of ways, storm sewer systems, and sidewalks (including multiuse paths) (the “Infrastructure Improvements”). Required Infrastructure Improvements shall be detailed in construction plans to be approved by the City.
2. **Exhibit C**, attached hereto and incorporated herein by this reference, identifies all required improvements relating to or concerning landscaping for and along all roadways (including but not limited to principal and minor arterial roadways, major and minor collector roadways) and trails, in all private parks, and in open space areas and inclusive of sidewalks and trails outside the right of way, and all associated appurtenances (the “Landscape Improvements”). Required Landscape Improvements shall be detailed in landscape plans to be approved by the City.
3. Exhibits B and C include a description of Improvements and schedules, in a form acceptable to the City, of the estimated costs of Improvements to be accepted by the City. If construction of Infrastructure Improvements and/or installation of Landscape Improvements have not begun within one (1) year of the Effective Date, Developer shall submit to the City not later than ninety (90) days prior to commencement of construction or installation, as applicable, revised Exhibits B and/or C, as appropriate, providing then-current schedules of estimated costs for the

applicable Improvements and compliant with all then-current laws, codes, rules, regulations, standards and specifications of the City.

4. Costs provided in Exhibits B and C are provided for surety estimates only and shall not be used to establish or alter construction standards or specifications. The omission of any particular improvement from city approved construction plans or development permits shall not modify the obligation to provide the Improvements. Nothing in this Agreement shall be interpreted to alter or amend the City's Construction Standards and Specifications.
- B. Developer shall, at its sole expense, design, construct and install the Improvements for initial acceptance as provided in Section IV herein ("Initial Acceptance") and shall repair the Improvements as necessary until final acceptance by the City as provided in Section V herein ("Final Acceptance").
 - C. Construction and landscape plans must be approved by the City prior to commencement of construction of Infrastructure Improvements or installation of Landscape Improvements.
 - D. If the City or a third party designs and constructs any Improvements, the City or third party shall control the timing, scope, manner of design and construction and Developer shall grant the City or third party any easements, access, and right-of-way at no cost to the City necessary to construct such Improvements. In such a case, within the later of ninety (90) days of a written demand for payment or at the time of future development, Developer shall reimburse the City or third party for the actual costs of the design and construction of such Improvements, which costs shall be determined at the completion of construction. Nothing in this Agreement shall obligate the City to install or complete any Improvements or to require the City to recover costs of Improvements from any person.

- A. Security for Construction of Infrastructure Improvements.
 1. Prior to commencing construction of any of the Infrastructure Improvements, Developer shall provide, or cause to be procured, to the City an irrevocable letter of credit or a performance surety bond payable to the City equal to one hundred fifteen percent (115%) of the estimated cost of the Infrastructure Improvements (the "Infrastructure Security"). In the event Developer fails to obtain Initial Acceptance within **twenty-four (24) months** from the commencement of construction, subject to extension at the City's sole discretion, the City may retain the Infrastructure Security and apply such funds to completion of the Infrastructure Improvements including administrative costs related to the retention of the Infrastructure Security and completion of construction.
 - b. The City may, at its sole discretion, refund all or part of the Infrastructure Security not applied to completion of the Infrastructure Improvements.

- c. The method and manner in which the City elects to construct or install the Infrastructure Improvements shall be at the sole discretion of the City; provided, however, that nothing herein shall obligate the City to install or complete the Infrastructure Improvements and nothing herein shall prevent, prohibit or limit the remedies available to the City to enforce the obligations of this Agreement.

B. Security for Installation of Landscape Improvements.

In the event Developer is unable to complete all Landscape Improvements prior to Initial Acceptance of the Infrastructure Improvements due to periods of adverse weather or similar reasons approved by the City, Developer shall provide to the City an irrevocable letter of credit or a performance surety bond payable to the City equal to one hundred fifty percent (150%) of the estimated cost of the uncompleted Landscape Improvements (the "Landscape Security").  - c. The method and manner in which the City elects to install the Landscape Improvements shall be at the sole discretion of the City; provided, however, that nothing herein shall obligate the City to install or complete the Landscape Improvements and nothing herein shall prevent, prohibit or limit the remedies available to the City to enforce the obligations of this Agreement.
5. Regardless of the provisions of this Section II.B., the City shall not be responsible for maintaining the Landscape Improvements within the right-of-way of any arterial or collector roadways. The City shall maintain medians within principal and minor arterials to the extent landscaping has been installed by the City. - E. In the event any substantial repair or replacement is required to any of the Improvements during the Warranty Period and such repair or replacement is not timely made upon notice of defect, or in any event before the expiration of the Warranty Period, the City may elect one or more of the following:
 - 1. Extend the Warranty Period for up to an additional one (1) year after acceptance of the completed repair or replacement and require the Developer to extend the term of the appropriate Warranty;
 - 2. Call the appropriate Warranty and secure repair or replacement of the non-conforming Improvements; and/or

 - i. Not less than thirty (30) days after the date the punch list is provided to Developer, unless Developer authorizes an earlier inspection, the City shall conduct a re-inspection of the Improvements and generate a new written punch list unless all punch list items have been corrected, repaired or replaced to the satisfaction of the City.
 - ii. This process shall continue until all punch list items have been corrected, repaired or replaced to the satisfaction of the City, at which time, the City shall proceed with Final Acceptance as set forth herein.
 - b. If the subdivision and/or development of the Property involves a land dedication to the City for a future park or school site, floodplain or open space (the “Dedicated Area(s)”), the City shall inspect such Dedicated Area(s). In the event any damage or dumping has occurred in, on or to any Dedicated Area, Developer shall be responsible for the restoration thereof. Despite the issuance of a Letter of Final Acceptance pursuant to this Section V, if any, the City shall not release the Landscape Warranty unless Developer has restored the Dedicated Area(s) to the City’s satisfaction. Nothing herein shall be construed or deemed as requiring the City to release the Landscape Warranty prior to Final Acceptance of the Landscape Improvements.
2. Developer shall certify to the City that all persons and entities having provided labor and/or services in the construction or installation of the Improvements for which Final Acceptance is being sought have been fully paid subject to such exceptions as may be disclosed to the City and that are acceptable to the City.

If, pursuant to final inspection requested by the Developer or initiated by the City, including inspection of Dedicated Area(s), any Improvements or Dedicated Area(s) are found not to conform to the requirements of this Agreement or applicable City standards and specifications, the City may exercise any and all rights set forth in Section XV.
 - E. Developer’s failure to obtain Final Acceptance of Improvements prior to expiration of the Warranty Period related thereto shall constitute a Default under this Agreement, and the City may exercise its rights to secure performance as provided in Section XV.

- F. Nothing herein shall be construed or deemed as requiring the City to finally accept or release from Warranty any Improvements that are defective or damaged.

VI. PHASING
