- c. The PUD addresses a unique situation, confers a substantial benefit to the city, or incorporates creative site design such that it achieves the purposes set out in section 21-4370 (PUD Zone District) and represents an improvement in quality over what could have been accomplished through strict applications of the otherwise applicable district or development standards. This may include but is not limited to improvements in open space; environmental protection; tree/vegetation preservation; efficient provision of streets, roads, and other utilities and services; unique architecture or design, or increased choice of living and housing environments;

- h. As applicable, the proposed phasing plan for development of the PUD is rational in terms of available infrastructure, capacity, and financing; and
- i. The same development could not be accomplished through the use of other techniques, such as height exceptions, variances, or minor modifications.
