- Questions

Introductions

- City Staff
 - Shawn Poe, PE, CFM, City Engineer
 - Michael Renk, PE, Transportation & Mobility Manager
 - Gerardo Martinez, Transportation Engineer/Planner
- Michael Baker International
 - Jennifer Carpenter, Project Manager

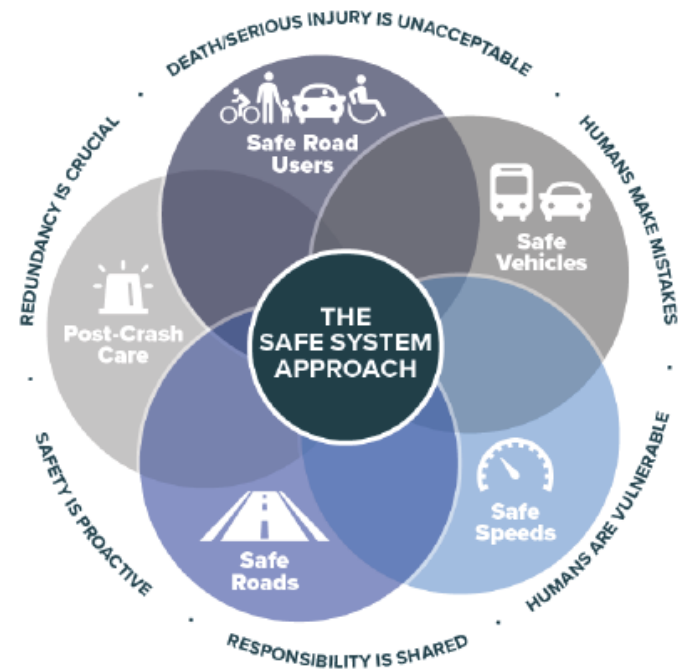

Safe Streets and Road for All (SS4A) Grant Program

- Administered by Federal Highway Administration (FHWA)
- Program includes grant funding for development of Safety Action Plan and/or Project Implementation
- City was awarded grant funding for development of Safety Action Plan (SAP)
- \$120,280 federal funding/\$30,070 local match

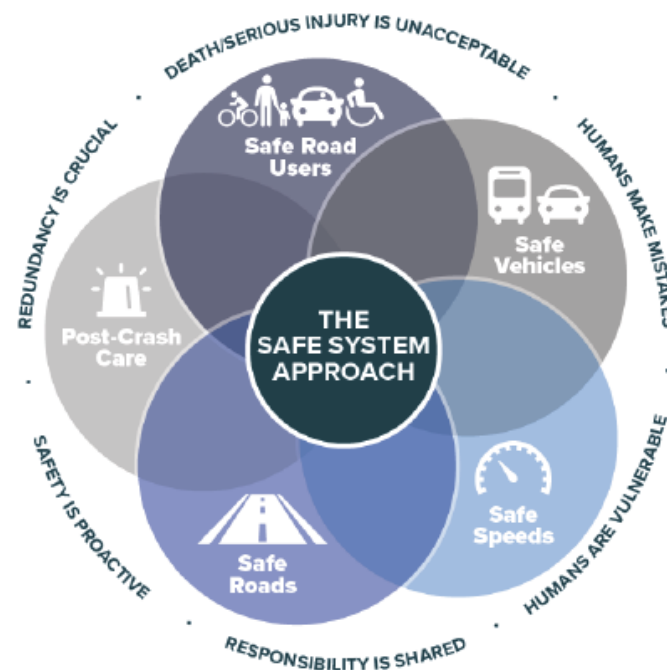

Safe Systems Approach

- Reduce *severity* of crashes
 - Reduce Impact Forces
 - Reduce Speeds
- Design for human mistakes
 - Separate users in space and time
 - Increase awareness
- *Proactively* identify risks

Safe Systems Elements

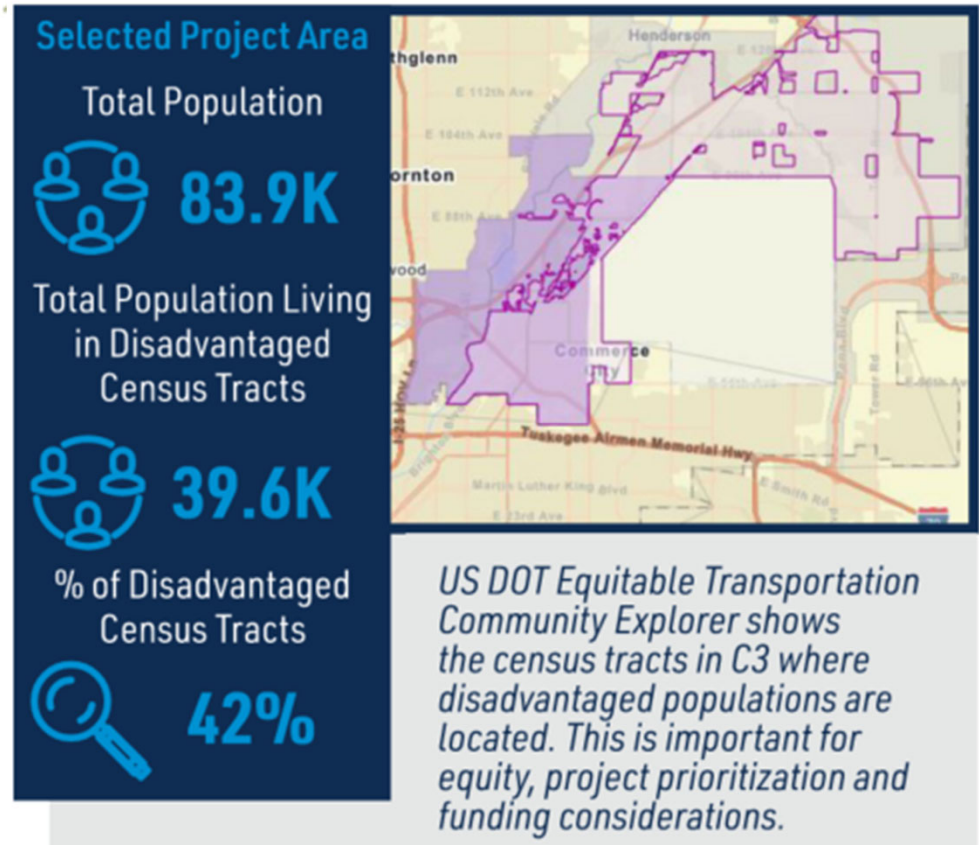

- Safe road users.
- Safe roads.
- Safe vehicles.
- Safe speeds.
- Post-crash care.

Components/Scope of Safety Action Plans

- Planning Structure
- Equity Considerations
- Safety Analysis
- Engagement & Collaboration
- Policy Review & Process Changes
- Strategy & Project Selection
- Leadership Commitment & Goal Setting
- Progress & Transparency

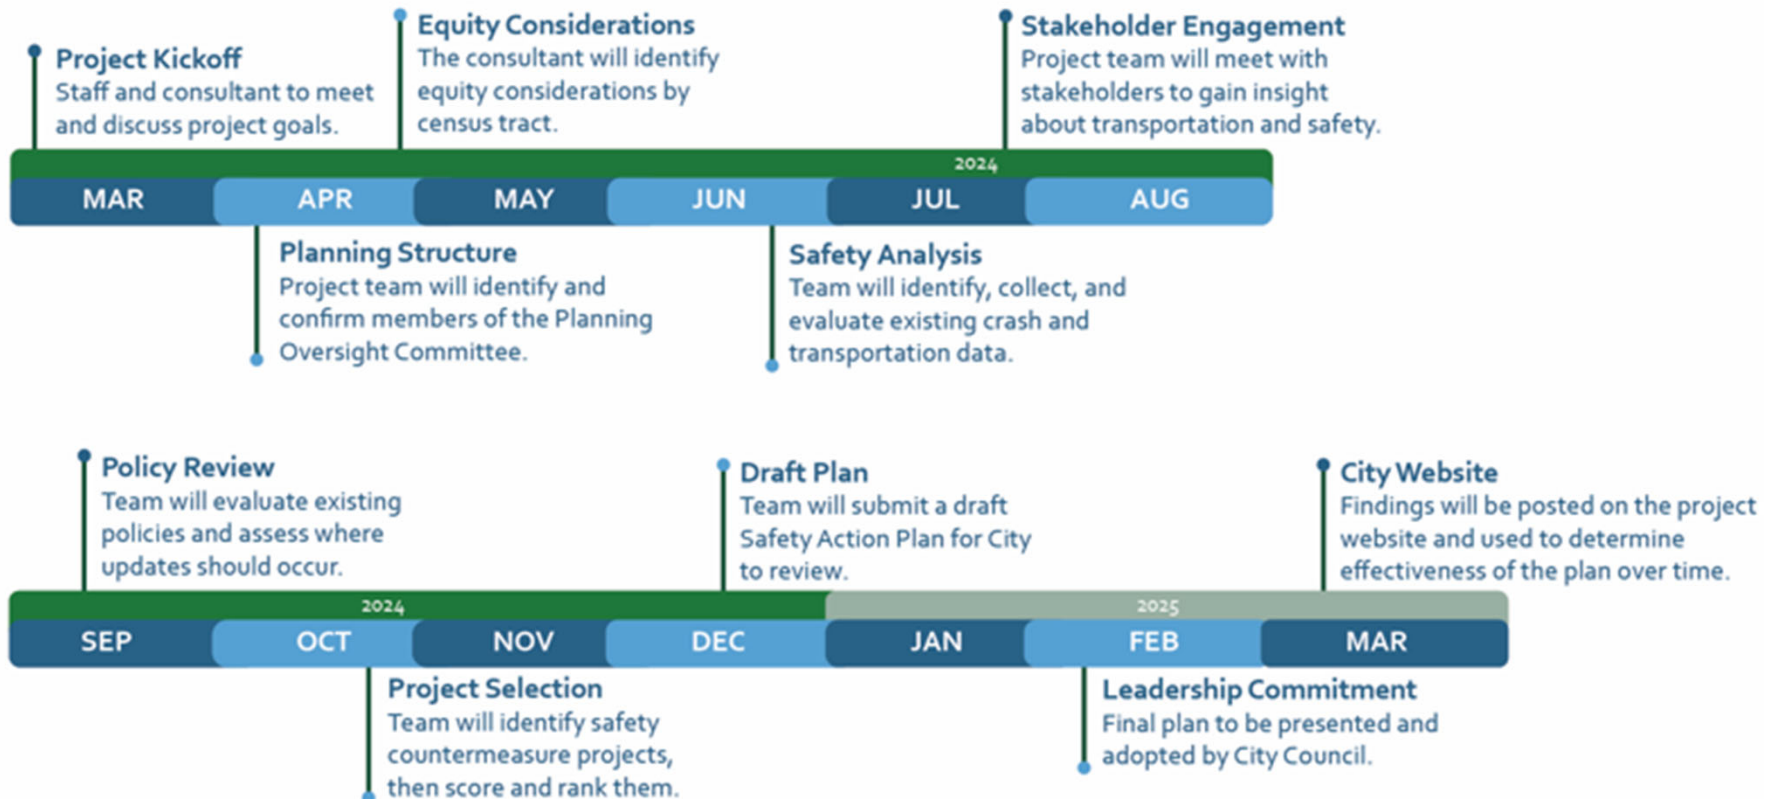

Plan must comply with FHWA Requirements to be eligible for implementation funding.

Coordination

- Adams County – Countywide Safety Action Plan development
- DRCOG Regional Vision Zero Plan
- C3 Transportation Master Plan Update
- Adams County E. 120th Avenue Corridor Study (US 85 to Tower Road)
- E. 64th Avenue Corridor Study
- Highway 2 Corridor Study

Schedule

Next Steps

- A Safety Action Plan must be in place to qualify for SS4A Project Implementation grant funding.
- Upon completion of the Plan, City will be eligible for SS4A Project Implementation grant
- Potential CIP projects may be prioritized through Safety Action Plan development process
