

E. 64th Avenue Corridor Study IGA

September 18th, 2023

Purpose

- The purpose of the Corridor Study for 64th Avenue is to analyze traffic along the corridor from Highway 2 to Quebec Parkway
- The study will advance a complete streets vision for E. 64th Avenue
- Initiate public engagement efforts
- Evaluate and recommend a range of multimodal improvements
 - multiuse trails
 - bike lanes
 - intersection safety improvements
 - roadway cross section reconfigurations (road diet)
- Used to develop Capital Investment Plan (CIP) projects for future grant and other funding opportunities
- Goal is to improve safety along the corridor by reducing speeds and accommodating multimodal travel.
