## REQUEST

Approve a Resolution updating the City fees associated with the processing and enforcement of metro district service plans for metro districts located within the Commerce City.

## BACKGROUND

- On January 6, 2025 (Ord 2661) Council repealed the moratorium on the processing of applications for new service plans for residential metropolitan districts.
- Following the repeal, staff have worked to streamline and update the application process for metro districts in accordance with the new regulations for metro districts outlined in Ordinance 2549.
- Reviewing and updating the City fees associated with metro districts was one of those action items.
- The CMO, Community Development, Finance, and Legal worked collaboratively to update the fees associated with processing a metro district service plan application and enforcing applicable service plans.
- The annual oversight fee amount will go towards the yearly audit of metro districts in Commerce City.
- The review fees are based on the average hourly rate of full-time employees and the estimated time to process an application.
- Other applications and enforcement will be based on the same average hourly rate and will be the actual cost of time spent by staff. The average hourly rate will be updated yearly on January 1<sup>st</sup> and kept on file in Community Development.

## CITY COUNCIL COMMUNICATION CONTINUED

- Costs associated with third-party consultants for legal, financial, or other services associated with the review of an application or enforcement will be passed directly through to an applicant or metro district.
- The new process for processing a metro district service plan application will go live on June 1<sup>st</sup>.
