Conditional Use Permit CU-91-10

Mayor Natale opened the public hearing.

Planner Paul Workman stated that the applicant, Green Level Reality is seeking a conditional use permit to allow them to continue operating as a community corrections facility. They had been operating as a use by permit. The applicant is seeking approval to increase the number and type of clients they can serve. The planning commission held a public hearing on April 6, 2010, and voted to forward the application to City Council with a favorable recommendation.

In response to questions from Council, Lt. Saunier stated that by allowing inclusion of violent offenders into this program, it provides a chance for those inmates to transition into the community instead of going from the prison right into the community and reduces the rate of recidivism by 50%.

Chief Baca reported that the violations coming from the facility are technical and non-eventful for the police department.

Evan Crist, 4901 Krameria, spoke on behalf of the applicant, he addressed the need to re-integrate the inmates into the community and the need to rebuild socialization and life skills
