COVID-19 Resident Resources

For Colorado COVID-19 data from CDPHE, visit: covid19.colorado.gov.

As of Jan. 1, Commerce City is now under the jurisdiction of the [Adams County Health Department \(ACHD\)](#). The ACHD takes over for the Tri-County Health Department, which has been dissolved following the creation of individual health departments for each member county. For more information and to sign up for their newsletter, visit AdamsCountyHealthDepartment.org/.

Commerce City Website Survey

To start the process of redesigning the city's websites, staff is inviting residents, businesses, and community members to help us evaluate existing city websites. We are looking for input and general feedback about your experience using and navigating city websites, and opinions about how to improve them. Our website survey is open now at c3gov.com/C3Website.

Note: Staff is not promoting the survey via social media at this time, as previous attempts to do so have been taken over by online bots, making the feedback unusable. Community Relations is using other tools to spread the survey for now.

One Week Remains to Apply for QCF Scholarships

Information on the Quality Community Foundation's [scholarship](#) programs is available online via the [city website](#). Scholarship applications close March 31. Apply and learn more about eligibility requirements at c3gov.com/QCF. For additional information, please contact Jenny Penoncello at jpenoncello@c3gov.com or 303-827-1537.

Second Creek Trail Closure

A section of the Second Creek Trail is closed for tunneling work between E. 104th Avenue and E. 106th Way through May 31. Installation work on the Second Creek Pipeline (being constructed by Metro Water Recovery) is expected to be complete by early May, with restoration of the area completed by end of May. Staff hopes the restoration matures enough in June and July to be ready for the PRG Tour de Donut event in August. Detour and closure signage is posted to include estimated closure dates, and notifications about the closure have gone out to the public.

MEMO

To: Jason Rogers, City Manager

From: Rosemarie Russo, Planner III

Subject: Sustainability Policy & Oil & Gas Update

Date: March 21, 2023

Executive Summary

This update is intended to provide a weekly update of environmental policy and planning work including, but not limited to:

- Environmental Policy Advisory Committee (EPAC), Lotus Contract and Community Outreach
- Municipal Sustainability
- Updates on information regarding the Suncor Refinery and its operations
- Legislative Updates & Regional Environmental Leadership
- Colorado Oil and Gas Conservation Commission (COGCC) Regulations & Applications

Environmental Policy Advisory Committee (EPAC) and Community Outreach

Dr Russo and a potential EPAC member met to discuss a partnership between Northglenn and Commerce City for outreach and grant proposals. Northglenn Council approved their Sustainability Action Plan a few weeks ago so a review of respective Plans are underway. Northglenn will be hosting a Forum that they invited Commerce City to participate in to address:

- Increased awareness of global impacts caused by Climate Change around the world.
- Impacts on food systems, energy markets, etc.
- How to focus on our region's greater risks based on Climate Change.
- Acknowledge different risks faced by those in different parts of the world.
- Increased awareness of what the City is doing to address Climate Change (City Actions).
- Build connections for participants working in the area and identify possible multi-jurisdictional collaborations.

Lotus Engineering & Sustainability Contract Progress

Lotus met with staff to discuss final revisions to the Low Impact Development Guidance document and draft Ordinance. Both CD and PW staff recommend a mandatory approach to storm water management given the

water contamination and problems with ice on streets and sidewalks throughout the winter months. Staff have designed checklist for developers and PW review staff to streamline the process and align with the new electronic Review software Central Square.

Municipal Sustainability

The Sustainability Team is working together to align sustainability related events and educational opportunities given both the internal and external committees ranked building internal capacity as an essential component of implementing triple bottom line planning into the organization and community.

Suncor Refinery

Following the Air Quality Investigation and Research for Equity (AIRE) Forums which centered on dispersion; air quality community and regulatory data analysis from 2023, two graduate students have initiated conversations about legal and public health research related to Suncor operations. Major issues are the differences between regulatory averaged limits and the continued spikes that could impact acute and chronic health of residents and employees working in Commerce City.

Legislative Updates & Regional and State Environmental Protection Leadership

Dr. Russo attended the third NREL study session on renewable energy procurement options including the availability; advantages and disadvantages of Renewable Energy Credits (RECs) vs on-site renewable energy generation such as:

- Differences in REC prices create an opportunity to conduct arbitrage to meet goals and reduce costs
- Buyers with bundled RECs in markets with high REC prices may sell their RECs and then purchase lower cost RECs in another market (termed "arbitrage" or "swap"). This swap enables the buyer to lower their costs and still claim the clean attributes.
- Swaps may happen at a 1:1 ratio or at other ratios, depending on the preference and price differentials.

Part of the evaluations included enhanced financing mechanisms such as

- The IRA extended the Investment Tax Credit (ITC) and Production Tax Credit (PTC) for the next ten years, which provide significant savings
- Federal grant programs like the Energy Efficiency and Conservation Block Grant Program (EECBG) and Climate Pollution Reduction Grants can provide resources
- The IRA's new direct pay mechanism allows for local governments to directly claim various energy tax credits for the first time.

Oil & Gas Updates

Staff and several other local governments have expressed concern with the Hansen bill and proposed mission change to COGCC including but not limited to:

- The regulation and permitting of hydrogen storage in subsurface formations, the transportation of hydrogen through pipeline(s), and any other hydrogen operations related to or interconnected with the Commission's directive and regulatory responsibilities in the State of Colorado, and
- The existing administrative structure for pipeline siting and safety regulation for operations related to or interconnected with the Commission's directive and regulatory responsibilities.

Staff continues to work with Civitas on necessary documentation and additional state requirements.

No additional information has been submitted by either applicant. Submittals with no status changes are listed in Appendix A.

Appendix A

City Oil and Gas Permits

The city currently has the following 2 Oil and Gas Permit applications under review.

Site Name	Case Number	Operator	Council Action Required	Well Count
Pelican	OG-002-22	Extraction Oil and Gas	Conditional Use Permit	28

Priority Timeframes		
Priority #	Priority Description	Priority Timeframe
1	High Urgency and High Impact	Needs to be accomplished on the scheduled agenda or within 1-2 weeks. Think legal deadlines (statute, charter, or municipal code), or other deadlines that also have a high impact on the organization or community if they are or are not accomplished. Example: Charter requires an item to be accomplished by Council no later than X date. State Statute requires action by the City within X number of days. Land Use Cases to comply with Statute and LDC timeframes.
2	High Urgency and Mid-High Impact	Needs to be accomplished on the schedule agenda or within 2-4 weeks. Think grant or contract deadlines that are important to accomplish and have a mid-high impact on the community or funding for a project.
3	Mid-High Urgency and Mid-High Impact	Item can be moved to another date within 4-8 weeks if necessary. Think of getting Council or community feedback for planning a project or hosting an event for the community in the near future.
4	Low-Mid Urgency and Low-Mid Impact	Item can be scheduled within 3-6 months. Think of planning for an upcoming years goals, projects, or events that need advance Council notice and feedback, execution of a contract, document, or grant application in the near future.
5	Low Urgency and Low Impact	Item can be scheduled as it fits into the Work Schedule and staff workload. Think of internal facing projects, funding, or feedback from Council. Example: Approval of a policy change, non-critical code updates, informational presentations or annual updates.
