II. PURPOSE AND OBJECTIVES OF THE DISTRICTS

A. Purpose and Intent. The Districts are independent units of local government, separate and distinct from the City, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the City only insofar as they may deviate in a material manner from the requirements of the Service Plan or as provided in the Special District Act or City Code. It is intended that the Districts will provide a part or all of the Public Improvements for the use and benefit of all anticipated residents and taxpayers of the Districts. The primary purpose of the Districts is to finance the construction of the Public Improvements. The Districts are not being created to provide ongoing Operation and Maintenance activities other than as specifically set forth in this Service Plan or the District Activities IGA.

This multiple-district Service Plan is intended to accommodate the phasing of the Project and the infrastructure needs of each phase. It is contemplated that the Districts will cooperate with each other on certain infrastructure that benefits the taxpayers and inhabitants within the District Boundaries, and that each District will additionally have its own particular infrastructure needs.

B. Need for the Districts. There are currently no other governmental entities, including the City, located in the immediate vicinity of the Districts that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment and financing of the Public Improvements needed for the Project as related to the District Boundaries. The applicant for the Districts has demonstrated through proforma analysis or other appropriate documentation that there are no other entities, including the applicant, that consider it desirable, feasible or practical to undertake, or that it is more economically advantageous to the future End Users residing within the District Boundaries for the Districts to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment and financing of the Public Improvements needed for the Project as related to the District Boundaries. Formation of the Districts is therefore necessary in order for the Public Improvements required for the Project to be provided in the most economical manner possible.

C. Relationship of Organizer and Developer/Owner. **[Describe the relationship between the organizer of the districts and the developer and owner of any property to be included in the districts' boundaries].**

D. Public Benefit. **[Describe public benefit of the Project and the Public Improvements].**

E. Objective of City Regarding Service Plan

1. The City's objective in approving the Service Plan is to authorize the Districts to provide for the planning, design, acquisition, construction, installation, relocation and redevelopment of the Public Improvements from the proceeds of Debt to be issued by the Districts. All Debt is expected to be repaid by taxes imposed and collected for no longer than the Maximum Debt Mill Levy Imposition Term (as it relates to residential property), subject to the Maximum Debt Mill Levy, and/or repaid by Fees as limited by Section V.F.7.

2. This Service Plan is intended to establish a limited purpose for the Districts and explicit financial constraints that are not to be violated under any circumstances. The primary purpose is to provide for the Public Improvements associated with development and regional needs pursuant to the City Approvals. Operation and Maintenance activities are allowed only as specified in this Service Plan or the District Activities IGA.

3. Each District shall dissolve upon payment or defeasance of all Debt incurred or upon a court determination that adequate provision has been made for the payment of all Debt, and, if the Districts have been authorized to Operate or Maintain any part of the Public Improvements under the District Activities IGA, to retain only the power necessary to impose and collect taxes or Fees to pay for costs associated therewith.

4. The Districts shall be authorized to finance the Public Improvements that can be funded from Debt to be repaid from Fees or from tax revenues collected from a mill levy, subject to the Maximum Debt Mill Levy and the Maximum Debt Mill Levy Imposition Term.

5. Except as specifically provided in this Service Plan, all Debt is expected to be repaid by taxes and Fees, as limited by this Service Plan, imposed and collected for no longer than the Maximum Debt Mill Levy Imposition Term for residential properties, and at a tax mill levy no higher than the Maximum Debt Mill Levy. Fees imposed for the payment of Debt shall be due no later than upon the issuance of a building permit. Generally, the costs of Public Improvements that cannot be funded within these parameters are not costs to be paid by the Districts. Debt which is issued within these parameters, as further described in the Financial Plan, will insulate property owners from excessive tax and Fee burdens to support the servicing of the Debt, will be of limited duration even under bankruptcy or other unusual situations, and will result in a timely and reasonable discharge of the Debt.

III. DISTRICT BOUNDARIES

The area within the initial District Boundaries includes [_____] ([_____] acres and the total area proposed to be included into the Districts (the Inclusion Area Boundaries) is approximately [_____] [_____] acres]. A legal description and map of the initial District Boundaries and the Inclusion Area Boundaries are attached hereto as **Exhibits A-1 and A-2** respectively. A vicinity map is attached hereto as **Exhibit B**. **[modify this language if there is no Inclusion Area anticipated]**

The current assessed valuation of the property within the District Boundaries [and the Inclusion Area Boundaries; delete if not applicable] is \$0 for purposes of this Service Plan and, at build out, is expected to be \$[_____]. B. The population of the Districts at build-out is estimated to be approximately [_____] ([____]) people.

C. **[Describe the nature of the Project, timeline for development, estimated assessed value after 5 and 10 years and estimated sales tax revenue. Also, please identify all plans, including without limitation applicable City and South Adams plans, that apply to any portion of the District Boundaries and describe how the Project is consistent with these plans. Please state if any part of the Districts is to be located within an urban renewal area and if the Project anticipates using tax increment financing. If the Districts intend to pursue TIF, provide information on how TIF financing will interact with the Districts' financing.]**

D. Approval of this Service Plan by the City does not imply approval of the development of a specific area within the Districts, nor does it imply approval of the number of residential units or the total site/floor area of commercial or industrial buildings identified in this Service Plan or any of the exhibits attached thereto, unless the same is contained within the City Approvals.

V. DESCRIPTION OF PROPOSED POWERS, IMPROVEMENTS AND SERVICES

A. Powers of the Districts and Service Plan Amendment. The Districts shall have the power and authority to provide the Public Improvements and related Operation and Maintenance activities within and without the District Boundaries as such power and authority is described in the Special District Act, and other applicable statutes, common law and the Constitution, subject to the limitations of this Service Plan. Notwithstanding the foregoing, if, after the Service Plan is approved, any State law is enacted or interpreted to grant additional powers or authority to metropolitan districts, such powers and authority shall not be deemed to apply to the Districts unless this Service Plan is amended. The restrictions in this Service Plan are being voluntarily acquiesced to by the Districts and shall not be interpreted in any way as a limitation on the Districts' sovereign power and shall not negatively affect the Districts' status as a political subdivision of the State.

3. Unless specifically described in this Service Plan or without receiving approval of the City Council by prior resolution, the Districts shall not enter into any intergovernmental agreement or Reimbursement Agreement that would either be likely to cause a substantial increase in the Districts' budget or involve the pledge of any mill levy or other revenues of a District.

4. The Districts shall implement the following independent controls to ensure the reasonableness of expenditures to be reimbursed to any owner of property or developer of land within the District Boundaries, or any person or entity affiliated with any such owner or developer: **[identify all with specificity]**.

5. Prior to the issuance of any privately placed Debt, or the execution of any owner or developer Reimbursement Agreement, the applicable District shall obtain the certification of an External Financial Advisor substantially as follows:

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

E. Extraterritorial Service Agreements.

1. The Districts anticipate entering into the following agreements for the provision of services to properties or persons outside of the District Boundaries: **[identify all with specificity with indication of material terms (including parties, costs, revenue pledges, duration, repayment terms, and penalties) and justification for each]**.

2. Unless specifically described in this Service Plan or without receiving approval of the City Council by prior resolution, the Districts shall not enter into any agreement to provide services to properties or persons outside of the District Boundaries.

F. Limitations & Restrictions on District Authority. In addition to any limitations and restrictions established by applicable law or elsewhere in this Service Plan, any powers and authority of the Districts shall be limited and restricted as provided in this section.

1. Operations and Maintenance Limitation. The purpose of the Districts is to plan for, design, acquire, construct, install, relocate, redevelop and finance the Public Improvements and for the financing of the Regional Improvements. The Districts shall dedicate the Public Improvements to the City or other appropriate jurisdiction or owners association in a manner consistent with the City Approvals. The Districts are not authorized to Operate or Maintain any part of the Public Improvements unless provision therefor has been made pursuant to the District Activities IGA, except that the Districts may be required and obligated to Operate and Maintain certain park and recreation improvements within the District Boundaries and shall Operator and Maintain any other part of the Public Improvements not otherwise conveyed or dedicated to the City or another appropriate governmental entity. The Districts shall not acquire, own, manage, adjudicate or develop water rights or resources except as otherwise provided pursuant to the District Activities IGA. Water and sanitary sewer facilities shall be conveyed to South Adams. The Districts' powers with regard to water and sanitary sewer service are limited to financing, designing, constructing and installing facilities and then conveying ownership of the same to South Adams pursuant to the then-applicable rules, regulations and policies of South Adams. The Districts are not authorized to operate or maintain water facilities or sanitary sewer facilities, except as may be authorized by South Adams and the City. The Districts shall consent to the overlap of the District Boundaries by South Adams (in the event such property is not already included within the service area of South Adams) and shall execute a resolution of consent to the same as may be requested by South Adams.

5. Initial Debt and Mill Levy Limitation. No District shall issue any Debt, impose a mill levy for the payment of Debt by direct imposition or by transfer of funds from the operating fund to the Debt service fund, impose or collect any Fees used for the purpose of repayment of Debt, until each of the following conditions have occurred: (a) the Land Use Approval, including a developer agreement to provide related Public Improvements, has been made effective; (b) the Districts and the City have executed the District Activities IGA; (c) the Districts have received voter authorization for the Regional Improvement Mill Levy and for the Districts' entry into an intergovernmental agreement with the City obligating the Districts to pay the proceeds from the

No District may cooperate with or support the conversion of any Taxable Property to a tax-exempt status if such Taxable Property was included in the Financial Plan except as provided in this Service Plan. Prior to any sale of real property within the District Boundaries for a nontaxable use, the seller shall demonstrate to the satisfaction of the City Council that the tax-exempt use of the property will not materially impact the applicable District's ability to meet its annual debt service obligations. If the seller cannot satisfy this burden, the District shall impose a fee on the purchaser in an amount comparable to the revenue that would have been generated by an equivalent property tax from the property until such time as the District's

outstanding Debt has been paid off. Such fee revenue shall be used for the repayment of outstanding Debt. The City Council may, by resolution, waive this provision.

8. Grants Limitation. No District shall apply for grant funds distributed by any agency of the United States Government or the State without the prior written approval of the City Manager. This does not restrict the collection of Fees for services provided by the Districts to the United States Government or the State.

10. Television Relay and Translation Limitation. No District shall be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain television relay and translation facilities and services, other than for the installation of conduit as a part of a street construction project, unless such facilities and services are provided pursuant to the District Activities IGA.

12. Zoning and Land Use Requirements. The Districts shall be subject to all of the City's zoning, subdivision, building code and other land use requirements.

13. Growth Limitations. The Districts acknowledges that the City shall not be limited in implementing City Council or voter-approved growth limitations, even though such actions may reduce or delay development within the Districts and the realization of District revenue.

14. Eminent Domain Limitation. No District shall exercise the power of eminent domain without a prior resolution of the City Council consenting to the exercise of such power.

15. Inclusion Limitation. [Except for the inclusion of property within the Inclusion Area Boundaries,] No District may not include property into the District Boundaries without a prior resolution of the City Council approving such inclusion.

16. Exclusion Limitation. No District may exclude property from the District Boundaries without a prior resolution of the City Council approving such exclusion. Notwithstanding the foregoing, the Districts shall promptly hear and determine any request for exclusion by any property owner in accordance with § 32-1-501, C.R.S.

17. Overlap Limitation. No District shall consent to the organization of any additional metropolitan district organized under the Special District Act that will overlap the District Boundaries [or the Inclusion Area intended for inclusion into the District Boundaries] unless the aggregate mill levy for payment of Debt will not at any time exceed the Maximum Debt Mill Levy of the District.

19. Consolidation and Subdistrict Limitation. No District shall file a request with any Court to consolidate with another Title 32 district without a prior resolution of the City Council

approving such consolidation. No District shall form a subdistrict without a prior resolution of the City Council approving the formation of such subdistrict.

20. Bankruptcy Limitation. All limitations contained in this Service Plan, including, but not limited to, those pertaining to the Maximum Debt Mill Levy, Maximum Debt Mill Levy Imposition Term and the Fees have been established under the authority of the City to approve a service plan with conditions pursuant to Section 32-1-204.5, C.R.S. It is expressly intended that such limitations:

a. shall not be subject to set-aside for any reason or by any court of competent jurisdiction, absent a Service Plan Amendment; and

b. are, together with all other requirements of Colorado law, included in the “political or governmental powers” reserved to the State under the U.S. Bankruptcy Code (11 U.S.C.) Section 903, and are also included in the “regulatory or electoral approval necessary under applicable nonbankruptcy law” as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).

21. Authorities. No District shall enter into any agreement establishing an authority or other separate entity under Section 29-1-201 *et seq.*, C.R.S., without a prior resolution of the City Council approving the District’s participating in the establishment of such authority or separate entity.

22. Land Acquisition. The purchase price of any land acquired by any District from a developer shall be no more than the then-current fair market value as confirmed by an independent MAI appraisal. All conveyances by any District to the City shall be by special warranty deed, shall be conveyed at no cost to the City, shall include an ALTA title policy issued to the City at the District’s cost, shall meet the environmental standards of the City and shall comply with any other conveyance prerequisites required in the City Code. Land and easements conveyed to the City shall be free and clear of all liens, encumbrances, easements, and covenants, unless otherwise approved by the City Manager prior to conveyance.

VI. FINANCIAL PLAN

A. General.

1. The Districts’ Financial Plan, attached as **Exhibit E**, reflects the Districts’ anticipated schedule for issuing such Debt as the Districts can reasonably pay within the Maximum Debt Mill Levy Imposition Term from revenues derived from the Maximum Debt Mill Levy, Fees and other legally available revenues, subject to the limitations of this Service Plan. The Financial Plan is based on economic, political and industry conditions as they presently exist and reasonable projections and estimates of future conditions. These projections and estimates are not to be interpreted as the only method of implementation of the Districts’ goals and objectives but rather a representation of one feasible alternative. Other financial structures may be used so long as they are in compliance with this Service Plan. Based upon the assumptions contained in the Financial Plan, the Financial Plan projects the issuance of Debt to fund the Public Improvements and anticipated Debt repayment based on the development assumptions and absorptions of the property

within the District Boundaries by End Users. The Financial Plan anticipates that the Districts will acquire, construct, and complete all Public Improvements.

2. The Financial Plan demonstrates that the Districts will have the financial ability to discharge all Debt to be issued as part of the Financial Plan on a reasonable basis. Furthermore, the Districts will secure the certification of an External Financial Advisor who will provide an opinion as to whether such Debt issuances are in the best interest of the Districts at the time of issuance.

B. Debt Issuance.

1. The total Debt the Districts shall be permitted to issue shall not exceed \$[_____] (combined limit for all Districts) (the “Maximum Debt Authorization”), as detailed in Section V.F.6. Debt in the form of an intergovernmental agreement between two or more of the Districts shall not count against the Maximum Debt Authorization. The Districts shall be permitted to issue Debt on a schedule and in such year or years as the Districts determine shall meet their needs and the financing shall be phased to serve development as it occurs. The Managing District is not authorized to issue Debt or to enter into any owner or developer Reimbursement Agreement.

2. All Debt issued by the Districts may be payable from any and all legally available revenues of the Districts, including general ad valorem taxes and Fees to be imposed upon all Taxable Property within the Districts, as limited by this Service Plan. The Districts will also rely upon various other revenue sources authorized by law to the extent consistent with this Service Plan. No District shall issue Debt with a lien that is subordinate or junior to any outstanding District Debt.

3. All Debt issued by any District must be issued in compliance with the requirements of Section 32-1-1101, C.R.S. and all other requirements of State law.

4. No District shall issue or undertake any Debt or enter into any Reimbursement Agreement if, in the opinion of the External Financial Advisor, the terms of such Debt or Reimbursement Agreement are not reasonable and in the best interest of the District and its future End Users based upon the status of development in the District, the projected tax base increase in the District, the security offered, and other considerations as may be identified by the External Financial Advisor.

5. Prior to the applicable District issuing any Debt or refinancing any outstanding Debt, bond counsel engaged by the District shall submit the proposed financing documents to the City Manager no less than 30 days prior to issuance. The City may, in its sole discretion, comment on such proposed issuance or refinancing but its comment shall not be relied on by the District or any third party. Neither this provision nor City’s comment, or failure to do so, shall be construed as approval or consent to such issuance or refinancing. The City agrees to provide comments, if any, within thirty (30) days of receipt of the proposed financing documents. The submission shall include the proposed dollar amount of the issue, the interest rate and other financing costs, all sources of revenue to be pledged to repayment, including the proposed debt service mill levy, and a description of the credit enhancements, together with any preliminary official statement, if available, or other prospectus for the Debt issue. No less than three (3) days prior to the Debt

issuance closing date, bond counsel for the District shall submit to the City Manager: (a) a final offering document; (b) an opinion of the District's counsel that the proposed issuance or refinance of District Debt is authorized by and in compliance with the Service Plan; and (c) a written opinion of an External Financial Advisor as to whether the proposed Debt issuance and its terms (including Debt amount, interest, underwriting discount, cost of issuance, repayment term, redemption feature, couponing, credit spreads, payment, closing date) are reasonable and in the best interest of the District based upon the status of development within the District, the projected tax base increase in the District, the security offered, and other considerations as may be identified by the External Financial Advisor.

6. At least thirty (30) days before their execution, the applicable District shall submit to the City Manager the terms of any agreement that includes a pledge of revenue to an entity or a promise to reimburse funds to another metropolitan district or an entity associated with or controlled by a developer of property within the District Boundaries. The City Manager may, in its sole discretion, comment on such proposed agreement or use any remedy available to the City. Neither this provision nor City Manager's comment or the City's action, or failure to do so, shall be construed as approval or consent to the proposed agreement. The City Manager agrees to provide comments, if any, within thirty (30) days of receipt of the proposed terms. The submission shall include the proposed amount of revenue pledged, the term of the pledge, any applicable interest rate and other financing costs, sources of revenue to be pledged for repayment, and the amount of any proposed mill levy to be pledged. A Debt issuance subject to Section VI.B.5, shall not be subject to this section.

C. Maximum Voted Interest Rate and Maximum Underwriting Discount. The interest rate on any Debt is expected to be the market rate at the time the Debt is issued. The maximum interest rate on any Debt and Reimbursement Agreement shall not exceed twelve percent (12%), including any rate applicable upon the occurrence of an event of default. The maximum underwriting discount will be three percent (3%). Debt, when issued, will comply with all relevant requirements of this Service Plan, State law and Federal law as then applicable to the issuance of public securities.

D. Maximum Debt Mill Levy, Operation and Maintenance Mill Levy and Maximum Combined Mill Levy.

1. The Maximum Combined Mill Levy, which includes both the Maximum Debt Mill Levy and the Maximum Operation and Maintenance Mill Levy, shall not exceed fifty (50) mills. The Regional Improvement Mill Levy shall not be counted against the Maximum Combined Mill Levy.

2. The Districts may each impose an ad valorem tax (a mill being equal to 1/10th of 1 cent) upon the Taxable Property within their respective boundaries for the purpose of paying the debt service requirements on District Debt, subject to the Maximum Combined Mill Levy. The Maximum Debt Mill Levy shall not exceed [_____] () mills, provided the Maximum Debt Mill Levy shall not apply for any period when the total amount of the applicable District's Debt is equal to or less than fifty percent (50%) of the District's assessed valuation;

3. The Districts may each impose an ad valorem tax (a mill being equal to 1/10th of 1 cent) upon the Taxable Property within their respective boundaries for the purpose of paying Operation and Maintenance costs, subject to the Maximum Combined Mill Levy. The Maximum Operation and Maintenance Mill Levy shall not exceed ten (10) mills even if the Maximum Debt Mill Levy does not apply or if the applicable District has no mill levy for the payment of debt service requirements.

4. No mill levy imposed by any of the Districts shall be adjusted to account for changes in the method of calculating assessed valuation (including any change in the ratio of actual valuation) or any constitutionally mandated tax credit, cut or abatement, without a Service Plan Amendment.

5. To the extent that any District is composed of or subsequently organized into one or more subdistricts as permitted under Section 32-1-1101, C.R.S. the term “District” shall be deemed to refer to the Districts and to each such subdistrict collectively, so that the limitations contained in this Service Plan will apply to the Districts and to each subdistrict on a collective basis, including but not limited to the limitation on total Debt, Maximum Combined Mill Levy, Maximum Debt Mill Levy and Maximum Operation and Maintenance Mill Levy. For example, if a subdistrict levies twenty mills on property within its boundaries for Debt service, then the District within which such subdistrict resides is only permitted to levy up to the Maximum Debt Mill Levy less twenty mills on the same property for Debt service so that the Maximum Debt Mill Levy is not exceeded with respect to the property within the subdistrict’s boundaries.

E. Maximum Debt Mill Levy Imposition Term. No District shall impose a levy for repayment of any and all Debt (or use the proceeds of any mill levy for repayment of Debt) on any property developed for residential use which exceeds the Maximum Debt Mill Levy Imposition Term. Each instrument evidencing Debt and each Reimbursement Agreement that is privately placed with a developer or owner of the property to be benefitted with Public Improvements shall provide that the District’s obligations thereunder shall be discharged at the end of the Maximum Debt Mill Levy Imposition Term regardless of whether such obligation is paid in full.

F. Debt Instrument Disclosure Requirement. In the text of each instrument representing and constituting Debt, the issuing District shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Debt agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this [bond or other obligations for payment] contained herein, in the resolution of the District authorizing the issuance of this [bond or other obligations for payment] and in the Service Plan for the District.

Similar language describing the limitations with respect to the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons, including, but not limited to, a developer of property within the District Boundaries.

G. Security for Debt. No District shall pledge any revenue or property of the City as security for the indebtedness set forth in this Service Plan. Approval of this Service Plan shall not be construed as a guarantee by the City of payment of the Districts' obligations; nor shall anything in the Service Plan be construed so as to create any responsibility or liability on the part of the City in the event of default by the District in the payment of any such obligation.

H. TABOR Compliance. The Districts shall comply with TABOR. With prior approval of the City Council, the Districts may set up other qualifying entities to manage, fund, construct and operate facilities, services and programs. To the extent allowed by law, any entity created by a District will remain under the control of the District's Board, and any such entity shall be subject to and bound by all terms, conditions, and limitations of the Service Plan and the District Activities IGA.

I. District Operating Costs.

1. The estimated cost of acquiring land, engineering services, legal services and administrative services, together with the estimated costs of the Districts' organization and initial operations, are anticipated to be approximately Fifty Thousand Dollars (\$50,000), which will be eligible for reimbursement from Debt proceeds.

2. In addition to the capital costs of the Public Improvements, the Districts will require operating funds for administration and to plan and cause the Public Improvements to be constructed and maintained. Each Industrial District shall seek the authority to impose an additional Regional Improvement Mill Levy of ten (10) mills as part of the District's initial TABOR election. Each District shall also seek from the electorate in that election the authority under TABOR to enter into an intergovernmental agreement with the City obligating the District to pay as a multiple-fiscal year obligation the proceeds from the Regional Improvement Mill Levy to the City.

C. Regional Improvement Mill Levy Imposition.

- 1) Each Residential District shall impose the Regional Improvement Mill Levy at a rate of five (5) mills for collection beginning in the first year of collection of the applicable District's Debt service mill levy and continuing in each year thereafter

through the fortieth (40th) tax collection year after which the Regional Improvement Mill Levy is first imposed.

- 2) Each Commercial District shall impose the Regional Improvement Mill Levy at a rate of (i) one (1) mill for collection beginning in the first year of collection of the applicable District's Debt service mill levy and continuing in each year thereafter through the twentieth (20th) year; and (ii) one and one-half (1.5) mills from the twenty-first (21st) year through the fortieth (40th) tax collection year after which the Regional Improvement Mill Levy is first imposed.

E. Regional Improvements that Benefit Adjacent Planned Developments. The City shall make a good faith effort to require planned developments that (1) are adjacent to the District's Boundaries and (2) will benefit from the Regional Improvement to also impose a Regional Improvement Mill Levy, to the extent possible.

F. Regional Improvements Authorized Under Service Plan. If so notified by the City Manager, the Regional Improvements shall be considered Public Improvements that the Districts would otherwise be authorized to design, construct, install redesign, re-construct, repair or replace pursuant to this Service Plan and applicable law.

G. Expenditure of Regional Improvement Mill Levy Revenues. Revenue collected through the imposition of the Regional Improvement Mill Levy shall be paid to the City, for use by the City in the planning, designing, constructing, installing, acquiring, relocating, redeveloping or financing of Regional Improvements, and the Operation and Maintenance thereof, which benefit the End Users of the applicable District as prioritized and determined by the City, unless the City and the applicable District agree to another manner of expenditure through an intergovernmental agreement approved by the City Council.

No modification shall be required for an action of the Districts that does not materially depart from the provisions of this Service Plan, unless otherwise provided in this Service Plan. This Service Plan has been designed with sufficient flexibility to enable the Districts to provide required services and Public Improvements under evolving circumstances without the need for numerous amendments, provided that the modifications of the types of improvements and facilities and changes in proposed configurations, locations, or dimensions shall be permitted to accommodate development needs if consistent with the then-current City Approvals, this Service Plan, and the District Activities IGA.
