New Application

Beddor Claude LLC
Dbas: Chronic Therapy
5401 Dahlia St
Commerce City, CO 80022

An application hearing was called to order by Hearing Officer Teresa Ablao. Hearing Officer Ablao stated that she was not prepared to hold the hearing because she received information, as part of a background investigation, that there was a stipulation and admission of violation, undisclosed in the application before her. As the Authority, Ms. Ablao needs further time to investigate the issue that involved their Wheat Ridge licenses.

A representative of the applicant stated that they went through an administrative hold at the Wheat Ridge location, but was all cleared through the state marijuana enforcement division.

Hearing Officer Ablao stated that this hearing will be continued to February 5, 2016, in order for her to receive all the information regarding the administrative hold issued by the state and to provide the applicant with time to submit, in writing, their reason for submitting false information on their application.

The applicant representatives were informed that a reposting is not necessary because this hearing is being continued.
