POLES REMOVED; UTILITY
CONDUIT INSTALLED

TOWER RD

LIGHTING CONDUIT
AND PULL BOXES
BEING INSTALLED

E 96TH AVE

N

0 250 500 1000

Segment 3

- Construction phasing called for all traffic to remain on Tower Road
- Staff evaluated the option of using E-470 as a detour for Segment 3
- Two-way traffic will be kept on Tower Road, based on the following factors:
 - No project time savings
 - E-470 has never done a detour of this magnitude
 - Experience with Segment 2 detour was high levels of frustration from drivers for out-of-direction travel
 - Would still experience traffic impacts on Chambers Road & 96th Ave.

Milestone Dates

Detour Dates

Segment 1 – Second Creek Box Detour Removal, July 2017

Segment 2 – To be reopened April 2017

Segment 3 – No detour

Final Asphalt Pavement of Top Mat

Segment 1 – November 2017

Segment 2 – April 2017

Segment 3 – July 2017

Project Status

*Project is currently on schedule & on budget
Completion – December 2017*
