*Note: Cases S-668-17 and Z-939-17 were presented together.*

**S-668-17: San Souci Enterprises is requesting approval of The District Subdivision for the property located at 5850 Dahlia Street.**

**Z-939-17: San Souci Enterprises is requesting to rezone the property located at 5850 Dahlia Street from I-2 to C-3 & I-1.**

Mr. Hader introduced both cases and noted they would be presented together. He asked that the record reflect the files contained the relevant notification and publication information. Mr. Martinelli presented the staff reports and presentation including the Development Review Team's recommendation for approval.

Caitlin Quander, 410 Seventeenth Street, Denver, legal counsel for the applicant, agreed with staff's presentation. She stated the site is appropriate for commercial development due to the location. She stated that approximately 20 new jobs would be created by the proposed development.

David Soucie, 433 South Basalm Street, Lakewood, stated the site is a great location for business because it is a gateway into the city.

Nicole Delmage, 4420 Zuni Street, Denver, is the architect for the project. She discussed the design of the building.

The commission asked about site access, parking allowance for all proposed uses, and potential use for a concert venue. In response, staff explained that a change in use to a concert venue would initiate an entirely separate development review process.

Chairman McFarlin opened the hearing for public comment. Noting that no person indicated a desire to testify, he closed the hearing and requested two separate motions.

**S-668-17 Motion:**

Commissioner Robertson made the following motion "I move that the Planning Commission enter a finding that the requested Final Plat for the properties located at 5846 and 5850 Dahlia Street contained in case S-668-17 meet the criteria of the Land Development Code and, based upon such finding, recommend that the City Council approve the Final Plat."

Commissioner Jones seconded motion

Robertson	Yes
Jones	Yes
Cammack	Yes
