 - Music in the Park Concert Series
Overall concerts were a success; lots of great pictures. Bullock added the collaboration with the Nation Night Out (NNO) went well. Councilwoman Elliott raised the question that if we continued to partner with NNO, would it be in addition to every Thursday in July, and if so what happens to the rain out date? Or do we start in June. Hanson's recommendation is that we do not have a rain out date.
For next year's process, Bullock's recommendation is to select bands as a group next year and that a Music in the Park meeting should be a requirement for everyone.
With the overlap of events from this year, Molina suggested doing a combo of music in the park and movie in the park.
Goal for attendance at Pioneer Park was not met. Members expressed concerns over specific neighborhoods, such as Turnberry, that did not know about the events. More effort for promotion throughout the whole city should be planned for. Ideas suggested; more signage (large signs), buying numerous amounts of yard signs, pitching it to local media, ensuring all HOA's have information, send information to schools before they let out for summer, Music in the Park Page on the City site, sending information to the Senior Center.
