<input type="checkbox"/>	Complaint	David Ferguson	09/18/2018	1:02 pm	Request 65635-Tiffany McGraw - Please conduct a liquor renewal inspection at Versative, at 6469 Highway 2. Diagram attached.	<a href="#">Edit</a>
<input type="checkbox"/>	Case Notes	Duyen (Dee Dee) Nguyen-Shook	09/26/2018	5:01 pm	Completed liquor renewal inspection w/Dave, too pictures and did walk -through with Xochitl manager of property sister of owner. Property had an entertainment facility on the main floor and in the basement has a tax business and a store selling religious items, books, candles, statues and misc items. In the kitchen cooler contained a case of beer, also at time of inspection platform 1 also had alcohol stored in that area.	<a href="#">Edit</a>
<input type="checkbox"/>	Case Notes	David Ferguson	09/26/2018	5:10 pm	On 09/26/18 I assisted Inspector Nguen-Shook with a liquor license inspection. We met an A-F, Ms. Xochitl, who said she was the manager at this business. She walked us into the business. Upon entering I observed signs on the wall for a tax service and directing people through the liquor establishment to go down stairs in the basement. I observed the bar section, there was beer in the cooler and mixes for the drinks. The manager showed the patio area and it appeared to be in order. We went to the kitchen, which is not included in the liquor license. I observed an open case of beer in the cooler. I advised the manager this was not allowed in the kitchen and she removed the beer immediately. We walked to the basement. I observed what appeared to be a store as there was a lot of small items appearing to be for sale. I observed several desks set up for the tax service. I asked if they had obtained a business license for the tax service. The manager said she did not think they had a license for the tax business. We went upstairs and to the cooler behind the bar. This was storing the spirits used for the bar. We returned and advised the City Clerk of what was observed and provided the photos taken of the business.	<a href="#">Edit</a>
