88th Avenue Widening Environmental Assessment

Commerce City is proposing a widening project and other improvements to E.88th Avenue between I-76 and Highway 2. The city is conducting an Environmental Assessment (EA) along this 1.6-mile stretch, which is a federally required process to develop design alternatives and evaluate environmental impacts for the improvements.

Project Goals

The goals of the 88th Avenue project are to:

- Improve capacity on E. 88th Avenue
- Provide a new bridge over the railroad crossing west of Rosemary Street
- Analyze roadway and driveway access points
- Improve safety for pedestrians and bicyclists
- Improve lighting, drainage and landscaping

To achieve these goals, the environmental study will evaluate impacts to the following proposed improvements:

- Widening E. 88th Avenue from two to four lanes with appropriate turn lanes and median
- Upgrading the traffic signal at the E. 88th Avenue and Rosemary Street intersection and connecting all signals between I-76 and Highway 2
- Replacing the existing at-grade railroad crossing with a grade-separated structure (i.e. bridge or overpass) over the tracks
- Building sidewalks along the roadway and providing bike lanes as called for in the city's [Walk-Bike-Fit Plan](#)

Next Survey Page:

Knowing how and why you use the corridor, in addition to where you live and work, will help us identify the primary users and uses of the corridor.

1. How often do you use any part of E. 88th Avenue from Highway 2 to I-76?

- ☐ Always (once or twice a day)
- ☐ Usually (3-5 times a week)
- ☐ Sometimes (at least once a week)
- ☐ Rarely (2-3 times a month)
- ☐ Never
- ☐ Other (please specify) _____

2. Why do you use E. 88th Avenue? (select all that apply)

- ☐ Commuting to and from work
- ☐ Short local trips (running errands)
- ☐ Traveling through (truck driver, tourist, other not destined for Commerce City)
- ☐ Attending events in the area (sports, conventions, other)
- ☐ Commerce City attractions (Flea Market, Drive-In Theatre, bars, restaurants, museums)
- ☐ I don't use E. 88th Avenue
- ☐ Other (please specify) _____

3. How do you typically travel through this area? (select all that apply)

- ☐ Automobile (by myself)
- ☐ Carpool
- ☐ Transit (bus)
- ☐ Bike
- ☐ Walk
- ☐ Ridesharing service (Uber/Lyft)
- ☐ Other (please specify) _____

4a. Where do you live and work? Please enter the zip codes below.

- ☐ I live in (zip code) _____
- ☐ I work in (zip code) _____

4b. On your frequent/typical trips along E. 88th Avenue, where do you start (address and/or cross-streets) and where do you end up (address and/or cross-streets)?

- Starting Point: _____
- Ending Point: _____

5. Are we focusing on the right things? (Select Yes or No for each item)

- Reducing congestion
- Improving safety
- Improving travel-time reliability on E. 88th Avenue
- Improving lighting, drainage and landscaping
- Is there anything else the study should focus on? _____

6. What is important to you on E. 88th Avenue? Please rank the following (1 being the most important, 10 the least important):

- ☐ Eliminating the railroad crossing/train stops
- ☐ Having sufficient capacity to manage special event travel (e.g., Flea Market peak season)
- ☐ Addressing congestion
- ☐ Reducing accidents
- ☐ Providing a reliable trip time along the 1.6-mile stretch
- ☐ Addressing bike and pedestrian facilities (e.g., sidewalks, bike lanes, etc.)

7. Is there anything else we should know? _____

What other issues should we consider? _____

Do you have any other questions about the study? _____

8. Do you want to receive e-mails with project updates and other opportunities to give feedback?

- ☐ Yes
- ☐ No

9. Contact Information

- Name
- Company/Organization
- Address
- City/Town
- State/Province
- ZIP/Postal Code
- Email Address
