Connectivity

- **The applicant has proposed a modified grid street network**
 - Access from Tower Road to the east through
 - DIA Tech Center to the south
 - via East 81st Avenue and East 83rd/84th Avenue.
 - Quintero Street and Telluride Street will extend north
- **East 88th Avenue will not be used for access**
 - Truck traffic is prohibited
 - Infrastructure improvements required would be extensive due to Second Creek
 - Truck traffic from the project will funnel through the DIA Tech Center

PUD Zone Document Land Use Plan

Planning Commission Analysis

- **The Planning Commission is supportive of the proposal**
 - believes the transition of allowed uses should integrate nicely between the DIA Tech Center (Nexus at DIA) industrial development to the south and the Buffalo Highlands and Second Creek Farms residential developments to the north
 - appreciates limitations that reduce the amount of truck traffic this development generates on Tower Road

PC Analysis – Annexation Zoning Approval Criteria

Criteria for Zoning Annexed Land (1 required to be met)	Rationale
The zoning is most compatible with the city's comprehensive plan designation for the property;	The applicant's intent is to create an employment center that is attractive to the market while not going to the full extent of allowing I-2 Industrial Zone District uses. By creating custom zoning regulations through a PUD, it is the best way to achieve that goal while still meeting the intent of the Comprehensive plan by allowing for a mix of I-1 and I-2/DIA Technology uses otherwise not achievable through a straight zoning designation.
The zoning is most compatible to the county zoning of the property at the time of annexation; or	N/A
The zoning is most comparable to the present use(s) on the property.	N/A
