

For a better quality of life.

September 28, 2019

Patrick Buckley
Community Development Codes & Inspection Manager/Building Official
7887 E. 60th Avenue
Commerce City, CO 80022

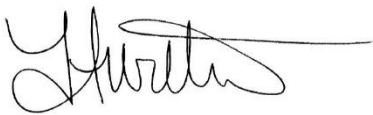

Dear Patrick:

Thank you for taking the time to read the HBA of Metro Denver's comments on residential fire sprinklers. With the residential sprinklers amended out of the 2018 proposed code, the HBA of Metro Denver ("HBA") strongly supports the 2018 ICC proposed changes. We appreciate Commerce City's willingness to work with the HBA and for your consideration of the comments we made during the code update process.

As always, we appreciate your thoughtfulness regarding residential fire sprinkler requirements. Continuing to amend residential sprinkler requirements out of the building code will help keep prices down and provide more opportunities for our members to provide workforce housing and affordable for-rent product.

If you have any questions, please don't hesitate to reach out to me at any time.

Sincerely,

Heidi K. Williams
Director of Government Affairs
