# FlexRide

(Formerly Call-n-Ride)

- Provides an option for commuters to make first- and last-mile connections to and from RTD transit stations.
- Passengers can access 21 FlexRide service areas for the cost of a Local fare or as an extension of a trip on rail or bus. Those completing a trip outside the Local zone will need to upgrade their fare.
- Online trip reservations are now available, reducing the advance reservation time from 60 minutes to approximately 10 minutes.
- Riders can use the subscription option to schedule pick-ups for reoccurring trips from the same day, time and location.

- The Free Travel Training Program is designed for older adults (60+), people with disabilities and others living with mobility limitations to learn how to ride public transit as a way to expand their transportation options and save money.
- There is no charge for the Travel Training Program. Participants can ride the fixed route and FlexRide buses for free and their Access-a-Ride service will remain unchanged.
- To learn how to ride transit, please contact RTD Training at 303-299-4144 or [TravelTraining@rtd-denver.com](mailto:TravelTraining@rtd-denver.com).
- RTD also offers a Transit Experience that is group based, and utilizes only the fixed-route system. This is open to everyone, regardless of age and ability.

The screenshot shows the RTD Trip Planner web interface. At the top, there is a navigation bar with the RTD logo and links for SCHEDULES, SERVICES, RIDER INFO, FARES & PASSES, and PROJECTS. On the right, there are icons for bus, train, and airplane, and a TOOLS button with a location pin icon. The main section is titled TRIP PLANNER and includes a location pin icon. Below the title, a message states: "Where would you like to go today? Our Trip Planner is here to help you get from point A to point B using RTD." The interface is divided into three numbered steps: 1. Start from: A text input field for "Stop, station, address, or landmark" with "choose on map" and "use my location" buttons below it. 2. End at: A text input field for "Stop, station, address, or landmark" with "choose on map" and "use my location" buttons below it. 3. Travel preferences: A section showing "Showing the Best trip" with "Travel by Walk + Transit" and "Leave at 9:47am". It includes an "Edit" button and a "Plan your trip" button. At the bottom right, there are links for "reset", "plan return trip", and "need help?".

## Google Maps

## Transit

# Commuter Rail vs Light Rail

## Commuter Rail

- Typically serves longer lines with fewer stations
- Can operate up to 79 mph
- Capacity of 91 seats, 79 standing for 170 total
- Level boarding from platform
- University of Colorado A Line, B Line, G Line, N Line

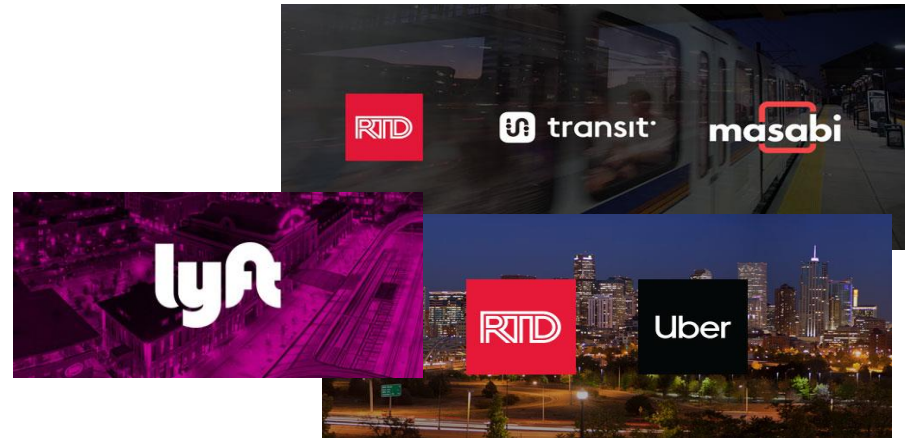

## Light Rail

- Can operate along crowded, narrow streets
- Accelerates and decelerates quickly; top speed of 55 mph
- Capacity of 64 seats, 91 standing for 155 total
- Stairs to board

## 61 AV Project

- Introduced an autonomous vehicle demonstration on a public roadway.
- This project helps with assessing the reliability and availability of an AV shuttle service and its applicability to transit.
- Six month test concluded on Aug.2, 2019. Project results are available on the RTD Website.

## Collaboration with Uber, Lyft and Transit app

- Starting Jan. 2019 users in the Denver area could select transit as an option in the Uber app, and buy RTD tickets directly from the app.
- In March 2019, Lyft and RTD announced the launch of "Nearby Transit" in Lyft's mobile app. This feature shows riders nearby public transit routes, walking overview and schedules directly within the Lyft app. App users are able to find bus and rail connections in addition to Lyft vehicles and scooters.
- Through a new collaboration with RTD and Masabi, Denver travelers can now use the Transit app to identify when the next train or bus is arriving and purchase their ticket to ride all within the app

- More than 400 security team members to serve you.
- More than 300 hours of specialized operator training to operate any vehicle.
- Two dispatch centers with 911 certified operators who can connect you with emergency response resources whenever needed.
- More than 12,000 cameras across our stations to deter criminal activity and secure footage to aid in investigations.

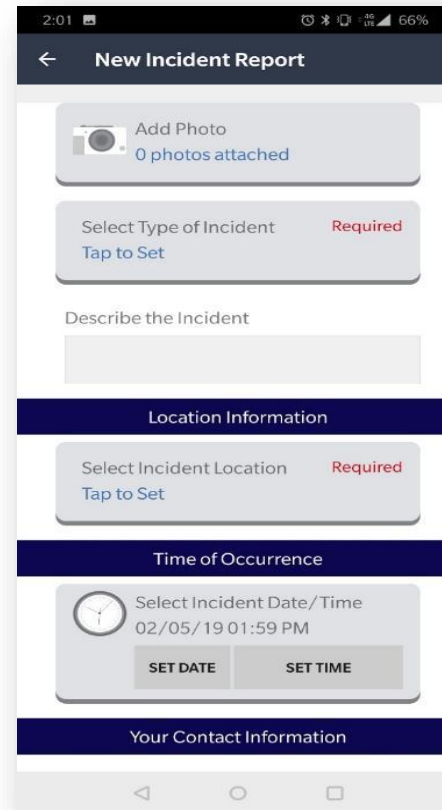

## Rail Safety

- Look up from your phone and pay attention—don't be distracted!
- Trains are quiet, be super alert at all times.
- Look both ways before crossing—trains can travel from either direction at any time.
- Cross only at designated crossings and follow traffic rules.
- Always follow safety signage and obey warning devices like flashing red lights and gate arms.

## Bus Safety

- Stand a safe distance from the curb and stay clear of the bus until it has stopped.
- Buses have blind spots, don't follow too closely when driving.
- Never cross in front of a bus or between buses after exiting.
- Remain seated while approaching your bus stop.
- Use handrails when boarding and exiting the bus

- Download RTD's Transit Watch app to report suspicious behavior or packages 24/7 to RTD Transit Police
- Available on Android & iOS
