

Funding for the Future Middle School has not been secured at this time, and so the extent of our site plans for this portion of the site have not been developed any further than this preliminary drawing. Alsup Elementary School is in Design Development now and that site plan has been fully reviewed and developed in accordance with city regulations.

Plan north shall be considered true north for the purpose of this review. Danielle Breedlove with JVA developed the Alsup ES detailed site plan, while Josh McGarvey with RB+B Architects developed this Final Site Master Plan.

FINAL SITE MASTER PLAN
