

**METRO WASTEWATER RECLAMATION DISTRICT**  
**SECOND CREEK INTERCEPTOR AND**  
**SAND CREEK INTERCEPTOR SYSTEM IMPROVEMENTS**

**SUPPLEMENTAL INFORMATION SUBMITTAL –AUGUST 20, 2019**  
**NEIGHBORHOOD MEETING SUMMARIES (JULY 10 & 17, 2019)**

**CITY OF COMMERCE CITY**  
**CONDITIONAL USE PERMIT APPLICATION (MAY 2019)**

Two Neighborhood meetings were held by the Metro Wastewater Reclamation District (Metro District of District) to meet the requirements of Commerce City's Conditional Use Permit approval process for its proposed Second Creek Interceptor and Sand Creek Interceptor System Improvements Projects. Meetings were held on July 10 and July 17, 2019 in Commerce City as described in the following sections.

## **1.0 JULY 10, 2019, NEIGHBORHOOD MEETING / COMMUNITY OPEN HOUSE**

### **1.1 Meeting Overview**

The Metro District promoted and hosted a public meeting at the Bison Ridge Recreation Center on July 10, 2019 to provide information, answer questions, and gather public input regarding the Second Creek Pipeline project and Sand Creek Interceptor System Improvements.

### **1.2 Notification/Attendance**

Notification postcards were mailed more than 3 weeks before the meeting to all residents and property owners located within 500 feet of the pipeline alignment. A total of 4,575 notifications were mailed. A sample notification postcard is included in **Appendix A**, and the complete list of notification recipients is provided in **Appendix B** and receipt of postage is provided in **Appendix C**.

### **1.3 Summary**

The meeting included open house discussions where members of the public could ask subject matter experts questions on the proposed alignment. After signing in and receiving a bilingual fact sheet regarding the alignment, attendees were encouraged to visit six stations to gather information, get questions answered from project representatives, and submit comments. Each station had a series of topic-specific display boards as well as supplemental maps and flyover video of the pipeline alignment. The six information stations included:

- Metro District Overview — Two Metro facilities serve more than 2 million people and 60 local governments, service area map identifying those served by connectors to connectors.
- The Second Creek Pipeline Project Overview — The project purpose is to convey flow to the Northern Treatment Plant while maintaining capacity at the Robert W. Hite Treatment Facility and expand the District's sustainable gravity flow transmission system. The Second Creek Pipeline is the result of a collaborative effort to identify the most cost-effective and long-term water reclamation solution and enable portions of Aurora, Brighton, Commerce City, Denver, Denver International Airport, and South Adams County to be served by the Northern Treatment Plant.
- Project Design — Overview on pipeline alignment, facts, and design elements with maps of the overall project alignment, project alignment within Commerce City specifically and the Sand Creek Interceptor alignment on hand as well as a flyover video illustrating the pipeline location and surrounding area along the 20-mile pipeline.
- Project Construction — Overview on construction methods including open-cut and trenchless, materials and facilities, what to expect during construction, minimizing construction impacts, current activity and project schedule.

- Regional Benefits — Overview on the project's regional benefits, including long-term infrastructure solution, regional collaboration, environmental stewardship, regional water reclamation service expansion, economic and community development.
- Public Comment

Five people attended the meeting. The majority of attendees were property owners near the alignment while another represented the Sand Creek Regional Greenway. Spanish language interpretation was offered to facilitate bilingual discussion, but was not required. See the list of meeting attendees in **Appendix D**.

## **1.4 Presentation Materials**

Presentation materials, including the fact sheet and display boards, are provided in **Appendix E**.

## **1.5 Formal Comments**

Most public meeting participants elected to ask questions and provide comments verbally to project representatives, rather than completing written comment forms at the Public Comment station. Public comment forms are provided in **Appendix F**. The main themes identified in the comments included:

- Sand Creek Regional Greenway representation was pleased to learn there is no impact to the Greenway or trail and indicated they received inaccurate information that said otherwise.
- Similarly, the property owners that were in attendance were also excited to learn that there are no impacts to their properties.

## **2.0 JULY 17, 2019, NEIGHBORHOOD MEETING / COMMUNITY OPEN HOUSE**

### **2.1 Meeting Overview**

The Metro District promoted and hosted a public meeting at the Eagle Pointe Recreation Center on July 17, 2019 to provide information, answer questions, and gather public input regarding the Second Creek Pipeline project and Sand Creek Interceptor System Improvements.

### **2.2 Notification/Attendance**

Notification postcards were mailed more than 3 weeks before the meeting to all residents and property owners located within 500 feet of the pipeline alignment. A total of 4,575 notifications were mailed. A sample notification postcard is included in **Appendix A**, and the complete list of notification recipients is provided in **Appendix B** and receipt of postage is provided in **Appendix C**.

### **2.3 Summary**

The meeting included open house discussions where members of the public could ask subject matter experts questions on the proposed alignment. After signing in and receiving a bilingual fact sheet regarding the alignment, attendees were encouraged to visit six stations to gather information, get

questions answered from project representatives, and submit comments. Each station had a series of topic-specific display boards as well as supplemental maps and flyover video of the pipeline alignment. The six information stations included:

- Metro District Overview — Two Metro facilities serve more than 2 million people and 60 local governments, service area map identifying those served by connectors to connectors.
- The Second Creek Pipeline Project Overview — The project purpose is to convey flow to the Northern Treatment Plant while maintaining capacity at the Robert W. Hite Treatment Facility and expand the District's sustainable gravity flow transmission system. The Second Creek Pipeline is the result of a collaborative effort to identify the most cost-effective and long-term water reclamation solution and enable portions of Aurora, Brighton, Commerce City, Denver, Denver International Airport, and South Adams County to be served by the Northern Treatment Plant.
- Project Design — Overview on pipeline alignment, facts, and design elements with maps of the overall project alignment, project alignment within Commerce City specifically and the Sand Creek Interceptor alignment on hand as well as a flyover video illustrating the pipeline location and surrounding area along the 20-mile pipeline.
- Project Construction — Overview on construction methods including open-cut and trenchless, materials and facilities, what to expect during construction, minimizing construction impacts, current activity and project schedule.
- Regional Benefits — Overview on the project's regional benefits, including long-term infrastructure solution, regional collaboration, environmental stewardship, regional water reclamation service expansion, economic and community development.
- Public Comment

Three people attended the meeting. The majority of attendees were Commerce City residents, but also included a representative of the Suncor Energy Pipeline Company. Spanish language interpretation was offered to facilitate bilingual discussion, but was not required. See the list of meeting attendees in **Appendix D**.

## **2.4 Presentation Materials**

Presentation materials, including the fact sheet and display boards, are provided in **Appendix E**.

## **2.5 Formal Comments**

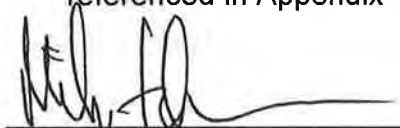

Most public meeting participants elected to ask questions and provide comments verbally to project representatives, rather than completing written comment forms at the Public Comment station. The main themes identified in the comments included:

- The attendee representing the Suncor Energy Pipeline Company was interested in working with the project team on pipeline rerouting with the development of the Sand Creek Interceptor System Improvements alignment.

**AFFIDAVIT OF MAILING**

I, MILES GRAHAM, as the representative for the Second Creek Pipeline project, hereby certify that on this 8 day of JULY, 2019 a true and correct copy of the notice of neighborhood meeting, marked as Appendix "A" attached hereto and by this reference incorporate herein, was mailed to those referenced in Appendix "B" in accordance with the neighborhood meeting notification requirements for Commerce City.

I further certify that the addresses shown on said Appendix "B" are their regular addresses and that said Notices were placed in the United States Mail with postage fully prepared thereon as documented by the postage receipt referenced in Appendix "C".

  
Representative's Signature

COMMERCE CITY, CO 80022

Aprenda más sobre el proceso de permisos, el programa del proyecto, y los próximos pasos. La misma información será proporcionada en ambas reuniones.

#### SECOND CREEK PIPELINE AND SAND CREEK INTERCEPTOR SYSTEM IMPROVEMENTS

## PROJECT SCHEDULE

**METRO WASTEWATER  
RECLAMATION DISTRICT**

Metro Wastewater Reclamation District  
6450 York Street  
Denver, CO 80229

## PROJECT OVERVIEW

The Second Creek Pipeline is new infrastructure, approximately 20 miles long, to be constructed by the Metro Wastewater Reclamation District. This new pipeline will enable portions of Aurora, Brighton, Commerce City, Denver, Denver International Airport, and Adams County to be served by the Northern Treatment Plant.

The Second Creek Pipeline was identified as the best long-term solution to address rapid regional growth and serve the 2 million Coloradans within the Metro District's service area.

## DESCRIPCIÓN GENERAL DEL PROYECTO

La canalización del arroyo Second Creek es una nueva infraestructura de unas 20 millas de largo que se construirá en el Metro Wastewater Reclamation District (Distrito de Recuperación de Aguas Residuales). Dicha obra permitirá que la planta de tratamiento del norte del distrito abastezca partes de Aurora, Brighton, Commerce City, Denver, el Aeropuerto Internacional de Denver (DEN) y el condado de Adams.

El arroyo Second Creek fue identificado como la mejor solución a largo plazo para hacer frente al rápido crecimiento regional y atender a los 2 millones de habitantes en Colorado dentro del área de servicio del Distrito.

Spanish and sign language interpretation services will be provided upon request with a ten business-day notice.

**Contact [SecondCreek@mwrddst.co.us](mailto:SecondCreek@mwrddst.co.us)**

Se ofrecerán servicios de interpretación en español y lenguaje de señas si se solicita con diez días hábiles de antelación.

# SECOND CREEK PIPELINE

METRO WASTEWATER  
RECLAMATION DISTRICT

## WHAT IS THE SECOND CREEK PIPELINE?

The Second Creek Pipeline is new infrastructure to be constructed by the Metro Wastewater Reclamation District. This new pipeline will enable portions of Aurora, Brighton, Commerce City, Denver, Denver International Airport, and South Adams County to be served by the Northern Treatment Plant.

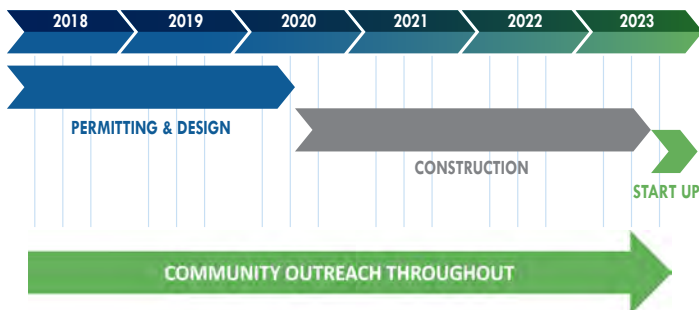

This collaborative effort identified the Second Creek Pipeline as the best long-term solution to address rapid regional growth and serve the 2 million Coloradans within the Metro District's service area.

## SECOND CREEK PIPELINE FACTS

- Approximately 20 miles long
- Diameter ranges from 24 to 60 inches
- Constructed 5 to 50 feet underground
- Connects to existing South Platte Pipeline and conveys flows to the Northern Treatment Plant
- Avoids developed areas and traffic corridors when possible

## Regional Benefits:

- Long-term infrastructure solution
- Regional collaboration
- Reflection of the Metro District's commitment to environmental stewardship
  - Sustainable gravity flow (up to 7 existing pump stations may be decommissioned)
  - Restoration or improvement of existing land conditions
- Expansion of regional water reclamation service
- Economic development and community growth

# **SECOND CREEK PIPELINE**

## **¿DE QUÉ SE TRATA LA CANALIZACIÓN DEL ARROYO SECOND CREEK?**

La canalización del arroyo Second Creek es una nueva infraestructura que se construirá en el Metro Wastewater Reclamation District (Distrito de Recuperación de Aguas Residuales). Dicha obra permitirá que la planta de tratamiento del norte del distrito abastezca partes de Aurora, Brighton, Commerce City, Denver, el Aeropuerto Internacional de Denver (DEN) y el condado de Adams.

Mediante este esfuerzo conjunto se identificó la canalización del arroyo Second Creek como la mejor solución a largo plazo para hacer frente al rápido crecimiento regional y atender a los 2 millones de habitantes en Colorado dentro del área de servicio del Distrito.

## **DATOS DE LA CANALIZACIÓN DEL ARROYO SECOND CREEK**

- Aproximadamente 20 millas de largo
- Diámetro de 24 a 60 pulgadas
- Construcción entre 5 y 50 pies bajo tierra

- Conecta la existente South Platte Pipeline y transmite flujo a la planta de tratamiento del norte (Northern Treatment Plant)
- Evita áreas desarrolladas y corredores de tráfico cuando posible

## **Beneficios regionales de la obra**

- Solución de infraestructura a largo plazo
- Colaboración regional
- Un reflejo del compromiso al cuidado del medio ambiente por parte de Metro District
  - o flujos sostenibles usando gravedad (hasta 7 estaciones de surtidores existentes podrían ser dadas de baja)
  - o restauración o mejora de las condiciones de terreno existentes
- Expansión del servicio regional de reclamación de agua
- Desarrollo económico y crecimiento comunitaria

**Welcome to the  
Second Creek Pipeline  
Neighborhood Meeting/  
Community Open House**

# SECOND CREEK PIPELINE

## *Metro Wastewater Reclamation District: Who We Are*

- Operating 2 facilities:
  - *Robert W. Hite Treatment Facility (RWHTF, 220 mgd)*
  - *Northern Treatment Plant (NTP, 28.8 mgd)*
- Provides service to 60 local governments
- Serves 2 million people across a 715 square-mile service area
- Formed in 1961 to protect public health and the South Platte River

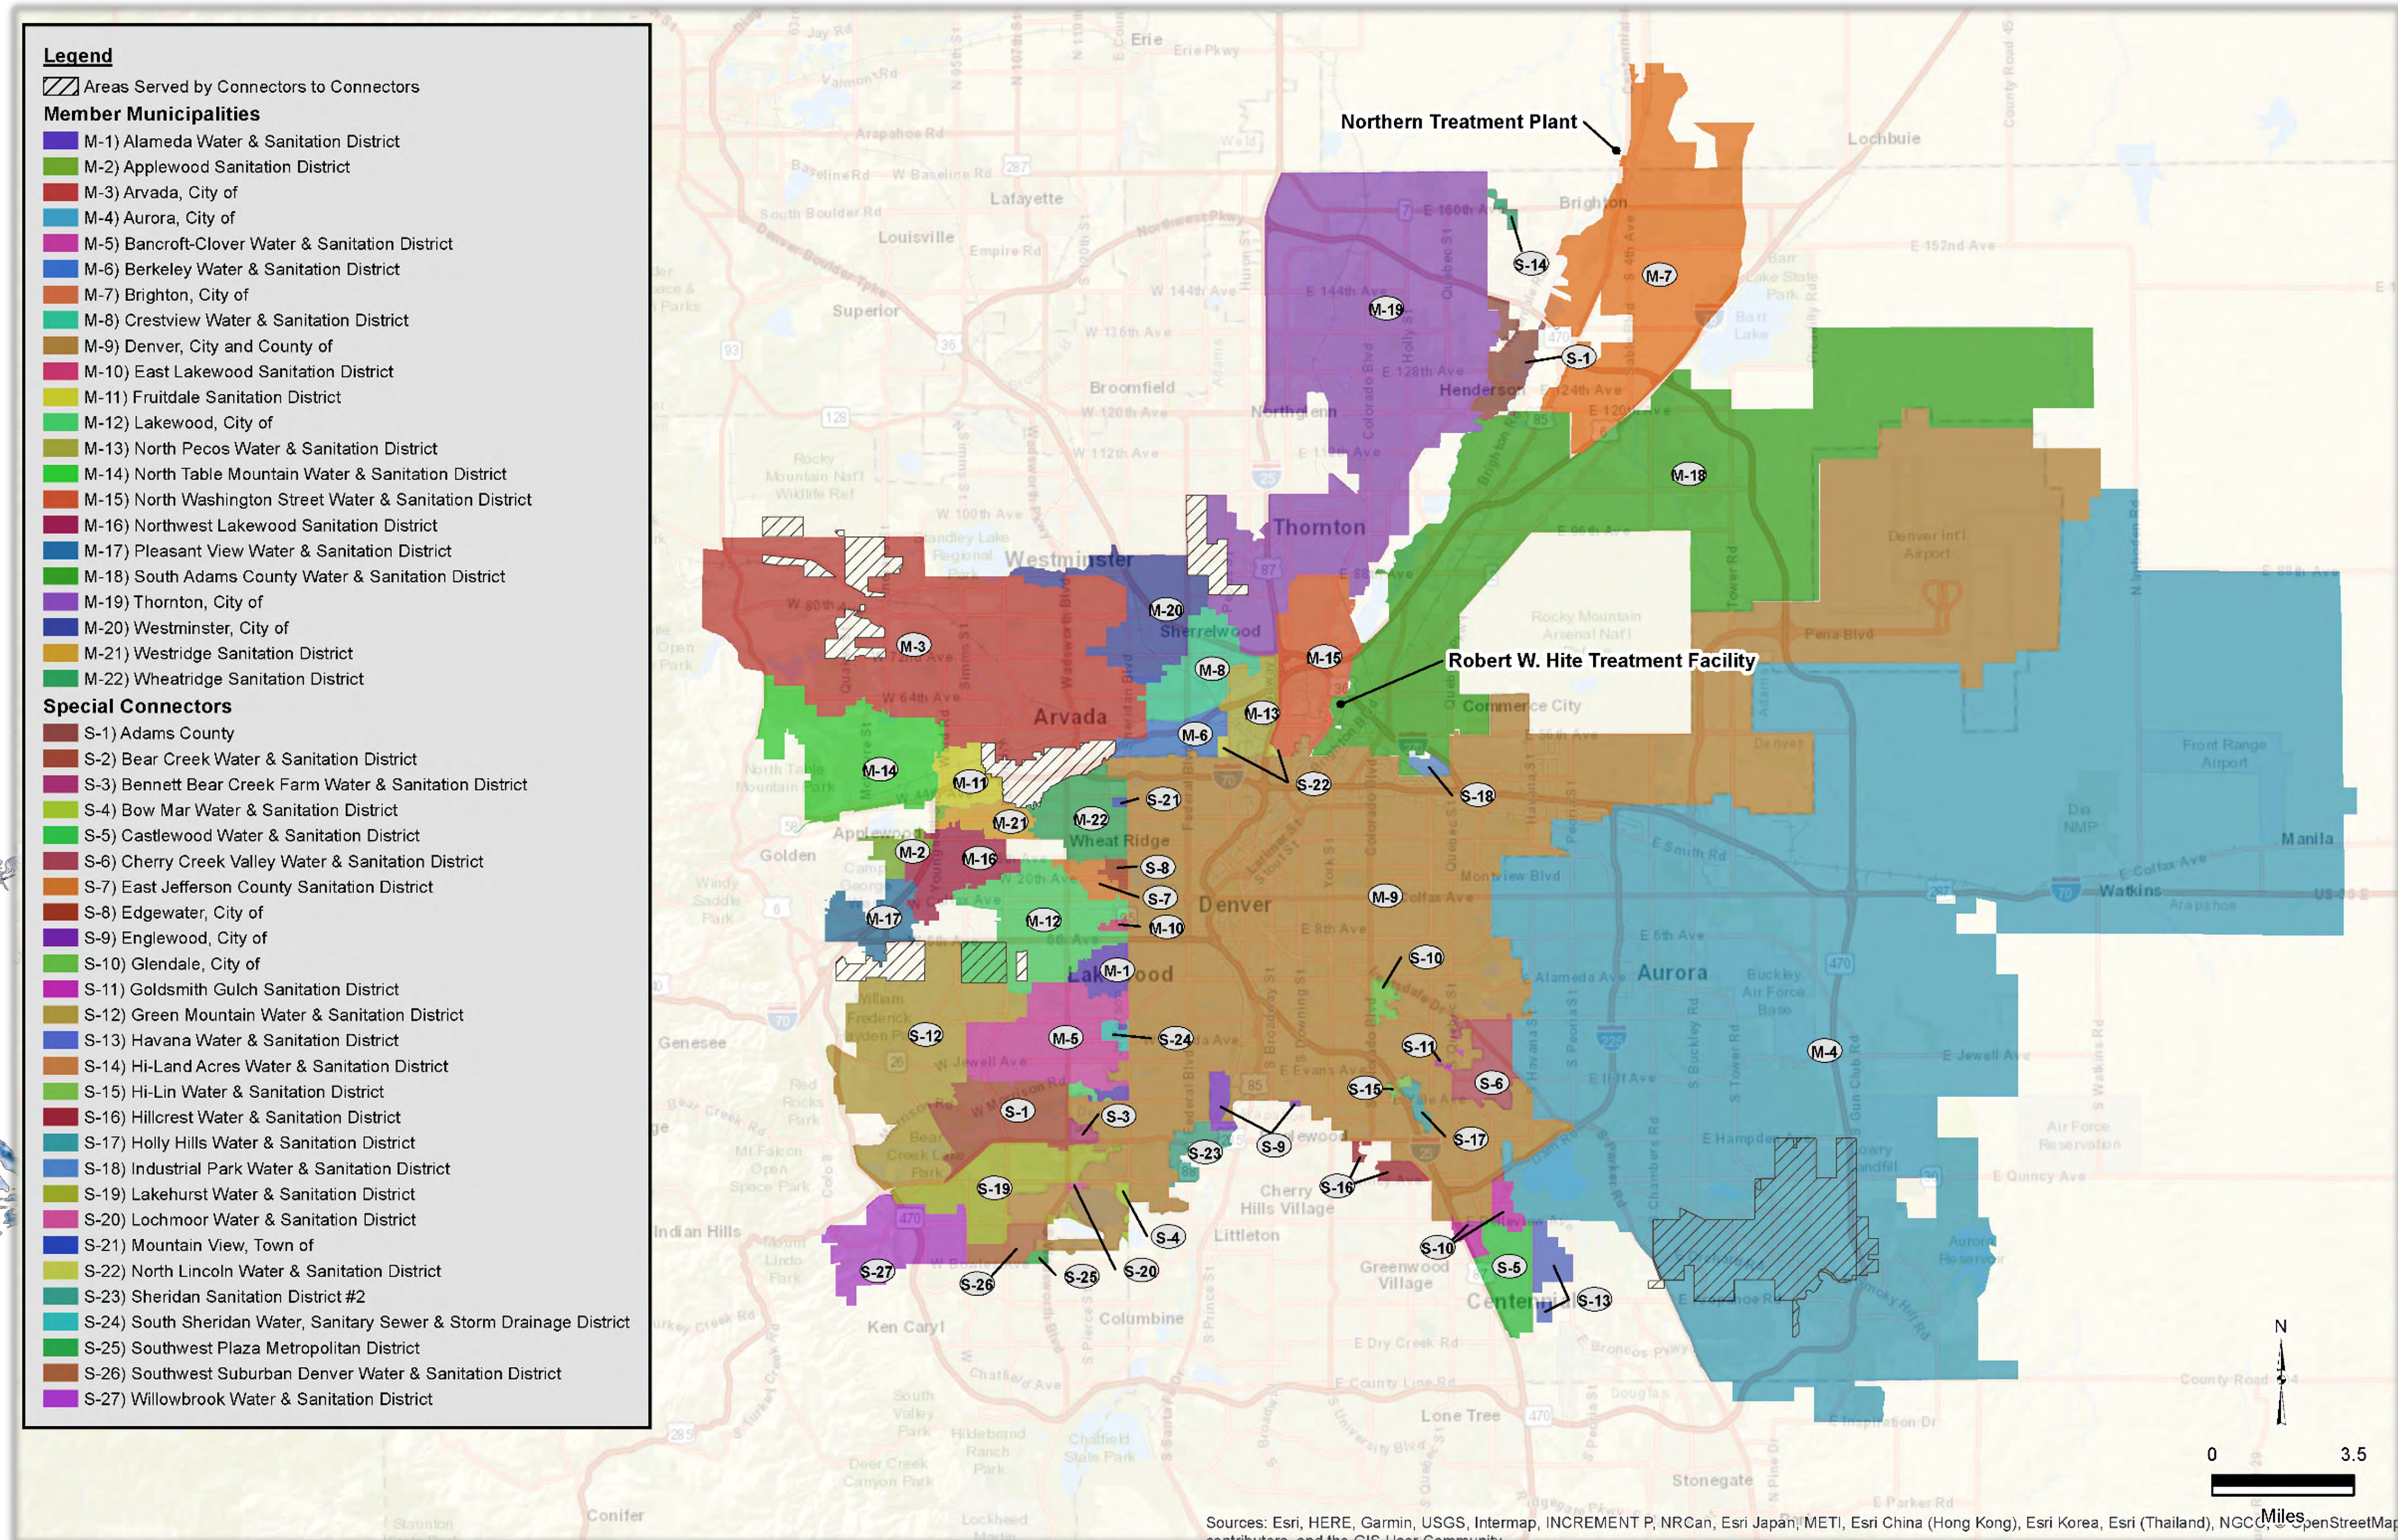

*Aerial photo of the Northern Treatment Plant*

METRO WASTEWATER  
RECLAMATION DISTRICT

# SECOND CREEK PIPELINE

## Service Area Map

# SECOND CREEK PIPELINE

## Project Overview

The Metro District is designing the Second Creek Pipeline to:

- Convey flow to the Northern Treatment Plant (NTP) and preserve capacity at the Robert W. Hite Treatment Facility (RWHTF)
- Expand the District's sustainable gravity flow transmission system
  - *Decommission up to 7 existing lift stations*
  - *Decrease long-term maintenance and operating costs*
  - *Reduce energy use and carbon footprint*

# SECOND CREEK PIPELINE

## *Planning for the Future: Regional Master Plan*

- Established a long-term plan for cost-effective service in the Sand Creek and Second Creek basins
- Collaborative planning effort between the Metro District, Aurora, Brighton, Denver, DEN, and South Adams County Water & Sanitation District
- Second Creek Pipeline identified as the optimal long-term regional solution

# SECOND CREEK PIPELINE

## *Why We're Here*

- Rapid community growth requires a regional water reclamation solution
- Increase transmission system capacity and connectivity to balance workload of regional treatment facilities:
  - *Robert W. Hite Treatment Facility (Metro District)*
  - *Northern Treatment Plant (Metro District)*
  - *Williams-Monaco Wastewater Treatment Plant (South Adams County Water & Sanitation District)*
  - *City of Brighton Wastewater Treatment Plant*

population

# SECOND CREEK PIPELINE

## *Second Creek Pipeline Facts*

- Connects to existing South Platte Pipeline and conveys flows to the Northern Treatment Plant
- Approximately 20 miles long
- Diameter ranges from 24 to 60 inches
- Constructed 5 to 50 feet underground
- Avoids developed areas and traffic corridors wherever possible

# SECOND CREEK PIPELINE

## *Open-Cut Construction Method*

- 120-foot wide construction corridor
  - *Narrower in constrained areas*
  - *40-foot permanent easements*
- Safety protocols
- Groundwater dewatering
- Erosion and traffic control
- Most common project construction method

*Examples of open-cut construction method.  
Photo source: HDR*

# SECOND CREEK PIPELINE

## *Trenchless Construction Method*

- Trenchless installation required at:
  - *Major roadways*
  - *Irrigation ditches and canals*
  - *Railroads*
  - *Environmentally sensitive areas*
  - *Deep installations*
- Estimated 15 – 20 trenchless installations pending final alignment evaluations

*Example of trenchless construction method. Photo source: HDR*

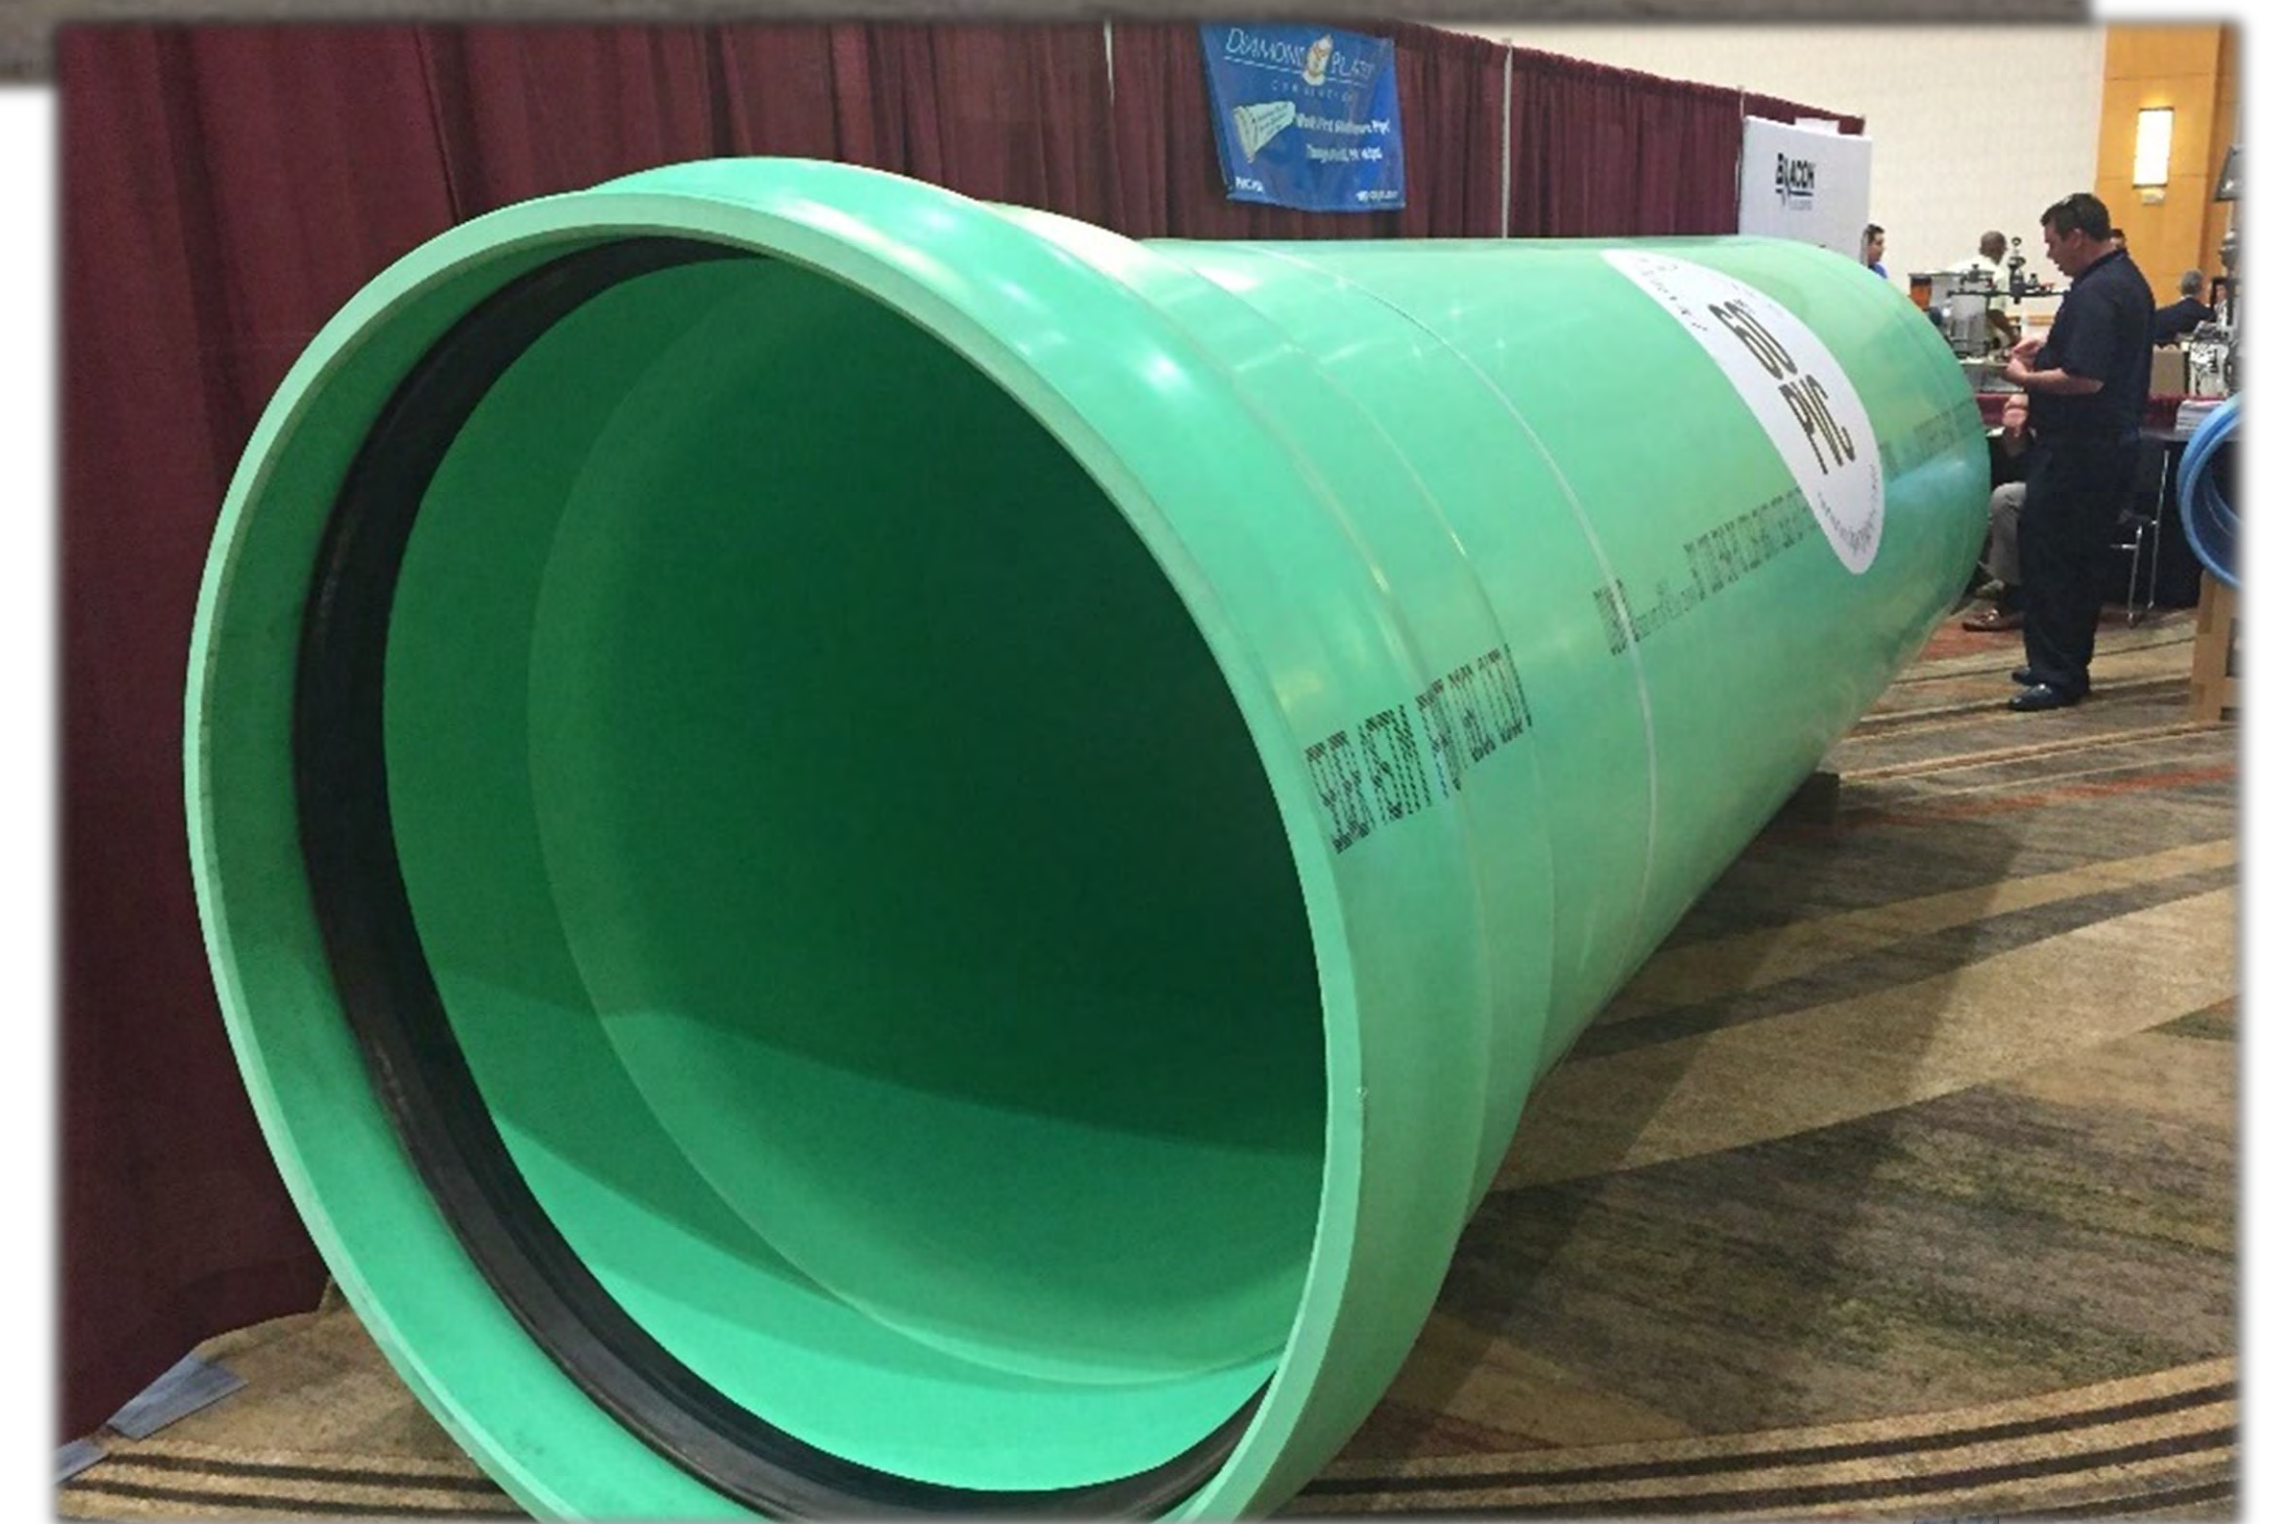

# SECOND CREEK PIPELINE

## *Materials and Facilities*

- Odor control facility
- Pipe
  - *PVC or FRP (fiberglass reinforced pipe) for corrosion resistance*
- Manholes
  - *Corrosion resistant materials*
  - *Located at pipe deflection points*
  - *Spaced as needed for maintenance*
- Connection structures
- Metering facilities

*Clear Creek Siphon Inlet Odor Control System.*

*Example of potential pipe material. Photo source: HDR*

METRO WASTEWATER  
RECLAMATION DISTRICT

# SECOND CREEK PIPELINE

## *What to Expect During Construction*

**Right of Way Pipe Staging**

**Pipe Installation**

**Restoration Activities**

*Safety is the top priority on all Metro District projects. Comprehensive safety protocols will be in place for all Second Creek Pipeline construction phases*

# SECOND CREEK PIPELINE

## *Minimizing Construction Impacts*

### Environmental Protection

Protects air and water quality

### Traffic Control

Protects the community, ensures safety, and minimizes delays

### Dust and Erosion Control

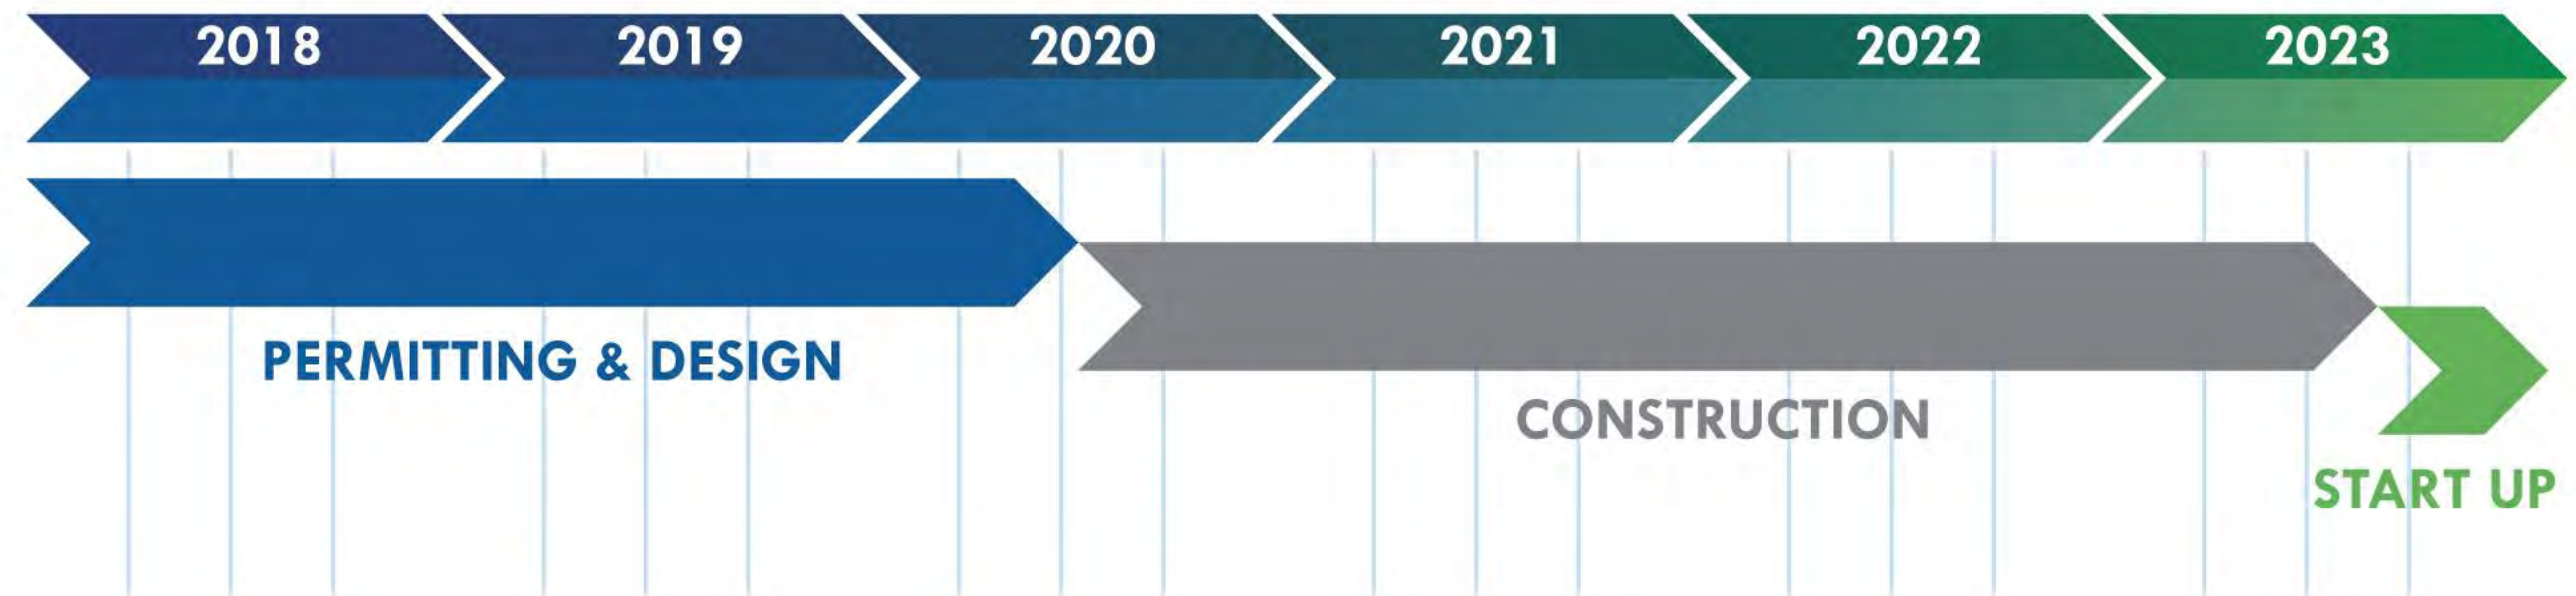

Protects nearby residents and the environment

*Construction activity will be limited to certain times and seasons to minimize environmental and community impacts, including traffic and noise*

## PROJECT SCHEDULE

COMMUNITY OUTREACH THROUGHOUT

METRO WASTEWATER  
RECLAMATION DISTRICT

# SECOND CREEK PIPELINE

## *Regional Benefits*

- Long-term infrastructure solution
- Regional collaboration
- Reflection of the Metro District's commitment to environmental stewardship
  - *Sustainable gravity flow (up to 7 existing pump stations may be decommissioned)*
  - *Restoration or improvement of existing land conditions*
- Expansion of regional water reclamation service
- Economic development and community growth

*Part of the region's plans for more than four decades, the Northern Treatment Plant provides advanced, cost-effective water reclamation for surrounding communities.*

Please provide any additional comments on the Second Creek Pipeline below.

Thrilled there will be no impact —  
 as I learned here tonight — of  
~~the~~ Sand Creek, the Greenway of trail,  
 we had heard different information,  
 so we are very pleased. If plans  
 change and Sand Creek is impacted,  
 please let me know —

Thank you!
