

Ordinance 2266 – Noble Amendment 2 – Setback from Plugged and Abandoned Wells

Purpose: To increase plat requirements restricting habitable structure distance from plugged and abandoned wells from 50' to 150'.

Motion: I move to amend Ordinance 2266 in Exhibit G, by increasing the plat restriction for habitable structures from plugged and abandoned wells to 150 feet as shown in the document titled "Noble Amendment 2 – Setback from Plugged and Abandoned Wells."

[red text shows modifications for reference]

BEGIN

Sec. 21-6280. Additional Subdivision Standards relating to Oil & Gas Sites

(3) Plat requirements.

- a. ~~No final plat shall be approved that does not contain the following~~
~~shall be denoted on all final plats:~~

- i. The location of any oil and gas wells, flowlines, and gathering lines, and any associated easements;
 - ii. The location of all recorded surface use agreements; and
 - iii. The location of any plugged and abandoned oil and gas wells, flowlines and gathering lines, including a plat designation surrounding such wells and expressly prohibiting any habitable building or structure within ~~150~~ feet;
