Domenic Martinelli, Planner, introduced himself and the case. Seeing that all posting and related legal requirements were included with the case folder, Planner Martinelli presented A-1749-H-20 and noted DRT recommendation of approval.

Discussion from the board involved what developments were in the works in the surrounding areas of the property site, colocation of the telecommunications facilities and how many users would use the tower, the maximum height for a use-by-right, who will provide landscaping and will maintain landscaping, and the color requirements for the masonry portion of the tower.

Seeing no further questions for the planner, Chairman Leffel invited the applicant to speak.

*John Marriot, 9763 Ironstone Place, Parker, CO
Applicant introduced themselves and made themselves available for questions. Applicant stated that the cross portion of the tower will not be painted any different color and would match the color of the tower. Discussed that AT&T has customers that need better coverage in the area which is why the height exception is requested. Applicant discussed that only two carriers would be allowed on this tower including AT&T. Applicant invited colleague to speak on behalf of the metro area coverage.*

*Dustin Dipentino, 23466 Currant Drive, Golden, CO
Applicant showed map of how new tower would increase coverage to area by connecting with adjacent towers and discussed different types of coverage.*

Seeing no further questions, Chairman Leffel invited the public to speak.

Seeing no public comment, Chairman Leffel called for a motion.

**A motion was made by Boardmember Gronquist:
I move that the Board of Adjustment find that the requested Height Exception for the property located at 10391 Luther Court contained in case A-1749-H-20 meets the criteria of the Land Development Code and, based upon such finding, approve the Height Exception.
