Only one submission has been received for the virtual art exhibition. Staff walked through the application process and where to access the call for artwork both in English and Spanish. Member Ramirez asked to change some language within the application process to ensure applicants aren't confused as to where to go to apply. Staff has agreed to make those changes. For the time being, staff will fill exhibition with city artwork. Hopefully, more submissions are received for next month's meeting to review.

The comprehensive plan is a long-term planning document that looks at the city's growth, land use, infrastructure, transportation, parks and open space, economic development, housing, public services, and much more. The plan sets forth the community's vision, goals, and policies to help guide development and investment decisions.
