Colorado Department of Transportation (CDOT) Update to the I-270 Improvement Project

**Summary and Background Information:**

CDOT is currently working on the preliminary engineering and environmental impact statement (EIS) process for the I-270 Improvement Project. Several public meetings have been held as part of the EIS process. CDOT has requested an opportunity to provide the City Council an update to the project, highlight public outreach efforts, and outline the next steps in the EIS process
