Summary and Background Information:

The applicant is requesting that the City approve the vacation request for these four identified parcels located within the property at 4625 E. 68th Avenue. The school district intends to obtain a clean title commitment and consolidate all parcels for future planning development.

The school district is requesting this vacation of ROW due to planned developments on the site. The district plans to have two educational facilities operating on these parcels within the next five years- Alsup to be open in 2021. The elementary school is currently in the design phase, and the potential future middle school will be built pending an award from the state for capital improvements. These two facilities will have separate addresses, but it is the districts intent to locate them on the same contiguous parcel under one clean title commitment. The district has contracted a licensed land surveyor to prepare plats according to state and local requirements. This proposed vacation is consistent with the specific vacation criteria found in the city's codes. These old ROW have never been utilized as they only exist on paper. Vacating these old ROW areas will also help ensure that our proposed location has a complete and clean title usable for future redevelopment.

The four vacated areas comprise a total of 46383 sf. There would not be a charge to the school

district for these vacated areas.

The vacation case is being processed concurrently with zoning case Z-958-19, and consolidation subdivision case S-748-19.
