Comprehensive Plan Indicators - 2013 Report

Summary and Background Information:

This report marks a continuing effort in data collection for key community indicators outlined in the Commerce City C3Vision Comprehensive Plan. This is the fourth year of the report, which is designed to evaluate and monitor changes in the community, and assess whether the assumptions in the Comprehensive Plan are valid and its goals are being achieved.

The Community Indicators Report includes measures of many benchmark areas and includes data on 44 different indicators. A benchmark is identified along with the indicator, and is shown in the right corner of each indicator. The benchmark is a measurable goal or target identified in the Comprehensive Plan, or a general principle or policy for the community that is intended to be implemented over the planning period.

The 2013 report is divided into twelve major areas of interest: Land Use Choices; Jobs and Business; Fiscal Stability; Housing and Neighborhoods; Redevelopment and Reinvestment; Transportation; Safety and Wellness; Parks, Open Space and Recreation; Public Facilities and Infrastructure, Appearance and Design; Cultural Facilities and Tourism; and Environmental Conservation and Stewardship. Each year, new subjects within these areas of interest will be evaluated for inclusion in future editions of the report.

Staff Responsible (Department Head): Chris Cramer, Community Development Director

Staff Member Presenting: Steve Timms, Planning Manager

Financial Impact: N/A

Funding Source: N/A

Staff Recommendation: No action at this time. Discussion only.
