Economic Development - Quarterly Economic Activity Report

The Economic Development Division is actively working to better focus the economic development program based on three (3) main program areas: retain and help expand existing businesses; attract new businesses; and market commercial real estate opportunities. The Economic Development Division worked with Development Research Partners on a new quarterly report to track economic indicators. This will help determine the impact of program activities on the city over time. Staff is presenting the first quarter 2015 report.
