Trails Update

Summary and Background Information : Commerce City residents have consistently voiced their support for trail connectivity. Parks continues working to expand the city's connectivity as new 2K projects are completed. Several new connections and trail segments will be designed and constructed in the near future with funds that have already been allocated from the Park Impact Fee through the CIPP process, and additional elements may be completed through grant funding and through Public Works' implementation of Walk, Bike, Fit as a part of the Transportation Plan.

Staff Responsible (Department Head): Carolyn Keith

Staff Member Presenting : Mike Brown

Financial Impact : Existing CIPP account for Northern Range Loop & Connections
