Discussion on North Metropolitan Industrial Area Study

Summary and Background Information : The North Metropolitan Industrial Area Connectivity Study will assess the transportation system in the North Metro Industrial Area and provide alternatives for future connectivity projects, as well as costing and phasing plans for implementation. The project study area is comprised of land in three jurisdictions: Commerce City, the City and County of Denver, and Adams County. The study is being funded through a \$1 million federal grant through the Denver Regional Council of Governments in partnership with Adams County, Commerce City and the City & County of Denver.

The purpose of tonight's presentation is to provide background on the study, share information collected to date and obtain feedback on the study to date as well as the priority of travel modes within the travel sheds.

Staff Responsible (Department Head): Director of External Affairs Halstead

Staff Member Presenting : Director of External Affairs Halstead, Project Manager Kirk Webb

Staff Recommendation : For information and discussion purposes.
