Overview of On-Site Environmental Testing for Mile High Greyhound Park

Summary and Background Information:

Delwest's Phase 1 environmental report identified a known EPA Superfund site at 4661 Monaco Street (Chemical Sales Co.) that could impact the MHGP site. Clean-up at the Chemical Sales Co. site has been completed, and the area is being monitored. The CCURA's Owner Representative will provide a short overview of the on-site environmental testing results and will be available to answer questions.

Staff Responsible (Department Head): Roger Tinklenberg

Staff Member Presenting: CCURA's Owner Representative, Rick Wells
