REQUEST

Public Works is requesting authorization of a Purchase Agreement with Intermountain Sweeper for the acquisition of a mechanical street sweeper.

BACKGROUND

The City of Commerce City owns and operates two street sweepers that are used year-round by the Public Works Streets Maintenance team. Regular street sweeping is required under the City's obligations to the State of Colorado and is also essential for maintaining air quality by removing particulate matter from roadways. In addition, street sweeping supports stormwater management by preventing pollutants, sediment, and debris from entering stormwater inlets.

The City purchased two sweepers in 2018. Due to heavy use, one of the sweepers reached the end of its service life and was replaced earlier this year. The second sweeper is now due for replacement.

This resolution authorizes the replacement of the remaining 2018 sweeper, allowing the City to maintain fleet consistency, utilize existing operator and technician training, and rely on our current parts inventory. Because lead times for new sweepers can extend up to one year, moving forward with this purchase order now is critical to ensure the remaining 2018 unit is replaced before aging equipment results in increased maintenance needs, higher repair costs, and reduced service delivery.
