Experience and Civic Activities

Please tell us about yourself and why you want to serve.

List any training, experience, education, or skills that would enhance your ability to serve on this board/commission.

I'm a licensed landscape architect and urban planner / designer (6 years post graduate) with a passion for the environment, the built environment, public spaces, and social equity. My education is from Mississippi State University where I graduated cum laude with my BLA, also with minors in sustainability, architecture, and sociology.

List all civic/professional/sports organizations and activities in which you have participated during the last five years.

American Alpine Club - general member Colorado Mountain Club - general member (and 14er finisher!) Alpha Rho Chi - professional fraternity for architecture and the allied arts. As a young professional, I served as a regional director and oversaw 3 university chapters. While in school, I served on the executive board, including 2 years as chapter president. American Society of Landscape Architects - affiliated with this organization professionally, though not a current member. Served as chapter president while in college.

Please briefly state why you are interested in serving on this board or commission.

Currently, my career is focusing on public spaces, parks, and urban connections. This directly relates to my personal ethos of what I want out of where I live, particularly when it comes to the well-being of myself, the environment, my neighbors, and the overall community at large. I'm a very hard worker and have been working on my personal home here in Commerce City to be an ecological asset. I'd love to continue improving the areas around me through building community and educating others, as well as having a voice for parks, open spaces, trails, and sustainability efforts within the City.

Are you a member of a community organization or nonprofit?

☒ Yes ☐ No

American Alpine Club

Question applies to Environmental Policy Advisory Committee

What is your personal lived experience or relationship to environmental issues within Commerce City?

I've owned a home here for 3 years, which sat on a terribly underutilized lot with bad soils. As a homeowner, I obviously wanted to see this improved for multiple reasons - but I have been working very hard to improve the quality of the soil, provide pollinators a source of food, and use low-water native plants to enrich the environment for myself and my neighbors. I see a lot of my neighbors, who consist mostly of hard-working families, and loads of them either have subpar landscaping that offer no ecological benefit or have the generic American vision of non-functional turf, heavy water use plants, along with massive carts full of trash every Monday. As someone who is very environmentally conscious, I compost in my backyard but I'd love to see this encouraged throughout the City, as well. Living near the Rocky Mountain Arsenal is something that I see as an asset to the community - yes, there are environmental issues buried underground, but its open space that can be utilized to bring awareness and teach others about the importance of our actions. Lastly, I occasionally bike to work (downtown Denver) and have a 20+ mile commute through more industrial parts of NE Denver / SW Commerce City...passing Suncor, inhaling pollutants, dodging debris on roads and trails.

Conflict of Interest Statement

In accordance with this definition, do you have legal or equitable interest in any business, however organized, which could be construed as a conflict of interest? If yes, please explain:

Unsure. I work as a landscape architect at a firm in Denver, but I don't know if that would be a conflict of interest.

In accordance with this definition, do you own any real property located in Commerce City or Adams County in which you have a legal or equitable interest which could be construed as a conflict of interest? If yes, please explain:

Unsure - I own a home in Commerce City, and anything that the Board/Commission would do would have a positive impact on my property...as well as all of my neighbors.
