REQUEST

Approve an ordinance authorizing the lease of equipment including mobile speed units and authorizing the city manager to negotiate and execute an agreement with American Traffic Solutions, Inc. doing business as Verra Mobility; setting forth parameters and restrictions; and providing for other related matters.

BACKGROUND

Resolution 2024-093 was approved in September 2024, and an agreement was executed in 2024 with Verra Mobility for red light cameras to be placed in strategic city locations. In 2025, the Police Department received approval to use operating budget for a Radar Van allowing for traffic monitoring in different locations throughout the city. The van would be leased to the City by Verra Mobility for \$8500/month for 60 months. The Radar requires approval via an ordinance. Furthermore, the original agreement requires amending as the use of a van will alter the total cost agreed upon in the original contract.
