CO 2026A HB 26-1001	Andrew Boesenecker Javier Mabrey Tony Exum	Housing Developments on Qualifying Properties The bill requires a subject jurisdiction, on or after December 31, 2027, to allow a residential development to be constructed on a qualifying property that does not contain an exempt parcel, subject to an administrative approval process. A qualifying property is real property that contains no more than 5 acres of land and is owned by: A nonprofit organization with a demonstrated history of providing affordable housing; A nonprofit organization that provides public transit; A nonprofit organization that has entered into an agreement with another nonprofit organization with a demonstrated history of providing affordable housing, provided that the agreement requires the nonprofit organization with a demonstrated history of providing affordable housing to develop a residential development on the property; A school district; A state college or university; A housing authority; or A local or regional transit district or a regional transportation authority serving one or more counties. If a subject jurisdiction requests, as part of an initial development application, that a nonprofit organization with a demonstrated history of providing affordable housing provide documentation that it meets required criteria, the nonprofit organization shall provide the documentation. A subject jurisdiction shall not: Disallow construction of a residential development on a qualifying property on the basis of height if the tallest structure in the residential development is no more than 3 stories or 45 f... <p>CO 2026A HB 26-1007</p>	<p>Lesley Smith Rebekah Stewart Cathy Kipp</p>	<p>Improve Customer Use Distributed Energy Resources</p> <p>The bill defines, and creates requirements for, portable-scale solar generation devices. In addition, the bill prohibits a provider of retail electric service or wholesale energy from, among other things, requiring a customer to obtain the provider's approval before installing or using a portable-scale solar generation device. The bill also prohibits a person from restricting, prohibiting, or imposing unreasonable conditions on the installation, use, or operation of a portable-scale solar generation device. Under current law, a utility that is subject to regulation by the public utilities commission (commission) must allow for customer ownership and use of a meter collar adapter through the utility's interconnection standards. The bill requires the commission, on or before December 31, 2026, to revise existing commission interconnection rules to explicitly require commission-regulated utilities to allow for customer ownership and use of meter collar adapters and to prohibit commission-regulated utilities from requiring a production meter as a condition of interconnection for a customer-sited distributed energy resource. The bill requires municipally owned utilities and cooperative electric associations to also allow for customer ownership and use of meter collar adapters and prohibits municipally owned utilities and cooperative electric associations from requiring a production meter as a condition of interconnection for a customer-sited distributed energy resource. <p>CO 2026A HB 26-1101</p>	<p>Cecelia Espenoza Matt Soper William Lindstedt</p>	<p>Criminal Offenses Related to Critical Infrastructure Metals</p> <p>The bill defines critical infrastructure related to commodity metals and adds several different criminal offenses related to the sale of, possession of, and failure to report stolen critical infrastructure. The bill prohibits an owner, keeper, or proprietor (owner) of a junk shop, junk store, salvage yard, or junk cart or other vehicle and every collector of or dealer in junk, salvage, or other secondhand property who buys a commodity metal that was part of critical infrastructure (buyer) from paying cash for the commodity metal unless the seller is paid by means of any process in which a picture of the seller is taken. The bill prohibits a buyer from possessing a commodity metal that was part of critical infrastructure without a certification from the seller or donator of the commodity metal. A buyer who unknowingly takes possession of commodity metals from critical infrastructure as part of a load of otherwise non-commodity metals without a written certification has a duty to notify the appropriate law enforcement agency or municipal code enforcement agency. An owner of a junk shop, junk store, salvage yard, or junk cart must make their book or register available to a law enforcement agency or municipal code enforcement agency upon request. <p>CO 2026A SB 26-001</p>	<p>Jeff Bridges Dylan Roberts Andrew Boesenecker</p>	<p>Workforce Housing & Housing Tax Credit</p> <p>Currently, a board of county commissioners (board) may not appropriate general fund money from ad valorem taxes for multijurisdictional housing authorities or other housing authorities established in statute (housing authorities). The bill allows a board to use revenue generated by ad valorem taxes that is in the county's general fund or in other specified county funds for housing authorities. In addition, the bill allows a board to use county general fund money from ad valorem taxes or money from other county funds for workforce housing. Currently, a middle-income housing tax credit (credit) may be transferred from a governmental entity or quasi-governmental entity to a qualified taxpayer. A qualified taxpayer must own an interest in a qualified project to claim the credit. The bill entitles an individual, person, firm, corporation, or other entity subject to income tax and transferred a credit by a governmental entity or quasi-governmental entity to claim the credit without owning an interest in a qualified project. Currently, the clean fleet enterprise (enterprise) may provide money to help public and private owners and operators of motor vehicle fleets finance acquisitions of compressed natural gas motor vehicles that are trucks if at least 90% of the fuel for the trucks will be recovered methane. Current law specifies that only a household with an income less than or equal to 120% of the area median income is eligible for assistance through the program, but it is unclear whether this requirement applies to housing units constructed by an eligible organization through one of its projects. The bill clarifies that only a household with an income less than or equal to 120% of the statewide area median income is eligible for housing constructed by an eligible organization through one of its projects. In addition, the program requires that housing offered through the program, including all taxes and fees, costs not more than 35% of a household's monthly income. The statutory salary amounts are adjusted every 2 years for inflation and take effect for terms commencing after any change is made. The bill changes the category of Dolores County from category V-C to category V-D and changes the category of Pitkin County from category II-B to category I-A. The category changes will decrease Dolores County official salaries as follows: County commissioner salary decreases from \$67,360 to \$61,236; County sheriff salary decreases from \$75,511 to \$68,646; County treasurer, assessor, and clerk salary decreases from \$67,360 to \$61,236; and Part-time county coroner salary decreases from \$15,225 to \$13,841. Pitkin County is a home rule county that may set the compensation for its officers and employees. The bill establishes what a court must include in a veteran defendant's deferred sentence and establishes what a veteran defendant must do to complete their deferred sentence and when they are eligible for discharge from probation and for dismissal of their charges. The bill requires courts to consider veteran status, when disclosed, when considering the sentence of a veteran defendant. The bill requires law enforcement, courts, and corrections personnel to receive training regarding justice-involved veterans. The bill requires courts to track and report the number of veteran defendants receiving, completing, declining, and denied veteran-deferred sentences. The bill requires the division of criminal justice in the department of public safety to develop a plan to track and evaluate outcomes of veteran defendants who receive veteran-deferred sentences. The bill requires the department of corrections (department) to create a veteran identification process that must be implemented in all offender diagnostic centers that allows the department to record which offenders are veterans. The bill maintains current state criminal penalties for pandering that involves menacing or criminal intimidation and for pimping, but it changes terminology in those offenses by replacing "prostitution" with "commercial sexual activity". The bill makes various conforming amendments, including those related to: Reporting requirements, immunity, affirmative defenses, and criminal conviction records in human trafficking cases; public nuisances; certification by the peace officers standards and training board; and the regulation of escort bureaus and massage parlors. The bill eliminates a court program for persons charged with certain prostitution-related offenses. (Note: This summary applies to this bill as introduced.)</p>

CO 2026A SB 26-102	Cathy Kipp Kyle Brown	Large-Load Data Centers The bill creates certain requirements for large-load data centers, which are defined in the bill as: A new data center that has a peak load of more than 30 megawatts or multiple new data centers with a collective peak load of more than 60 megawatts; or An existing data center that adds a peak load of more than 30 megawatts or multiple existing data centers that add a collective peak load of more than 60 megawatts. No later than June 30, 2030, the public utilities commission (commission) is required to make a determination on whether 100% hourly matching by large-load data centers is technically and economically feasible. If the commission determines that 100% hourly matching is not technically and economically feasible, the commission must make a determination of the highest percentage of hourly matching by large-load data centers that is technically and economically feasible (hourly matching requirement), which percentage the commission must update on a regular basis. Beginning January 1, 2031, an operator of a large-load data center (operator) must generate, purchase, or otherwise acquire a quantity of electricity generated from renewable resources necessary to meet 100% of the operator's large-load data center's total annual electricity consumption.
