BACKGROUND/REQUEST

In light of recent resident feedback highlighting significant enforcement challenges with our current noise regulations, The City Council motions to direct the City Manager to schedule a review of Commerce City Revised Municipal Code Section 6-2011 for a future City Council Study Session by the end of Q3 2026.

The City Council would like the City Manager to:

- i) assess the efficacy of current noise standards,
- ii) provide a comparison of other municipal noise standards in the Denver Metro region, and
- iii) provide recommendations on the establishment of acceptable interior and exterior noise levels on people with noise reduction and suppression techniques that can be implemented through appropriate Municipal and or Land Development Code ordinance language.

Furthermore, this assessment should include recommendations for stationary ground-borne and or other vibration sources experienced by residents and vibration sensitive uses.
